

## HOW TO CHARGE YOUR NUKEPROOF MEGAWATT

### YOUR NUKEPROOF MEGAWATT CAN BE CHARGED IN TWO WAYS:

- Battery in the bike
- Battery removed from the bike

### CHARGE WITH THE BATTERY IN THE BIKE

---

1. Locate the charging port on the nondriveside of the seat tube

2. Pull open the cover door and check port is in good condition

3. Insert your charger into the port

4. Plug the charger into a wall socket and switch on

5. The switch will turn screen and the display will display the Shimano steps logo for a few seconds

When the bike is fully charged, switch off the power at the wall socket and remove the charger

6. Ensure the charging port is in good condition

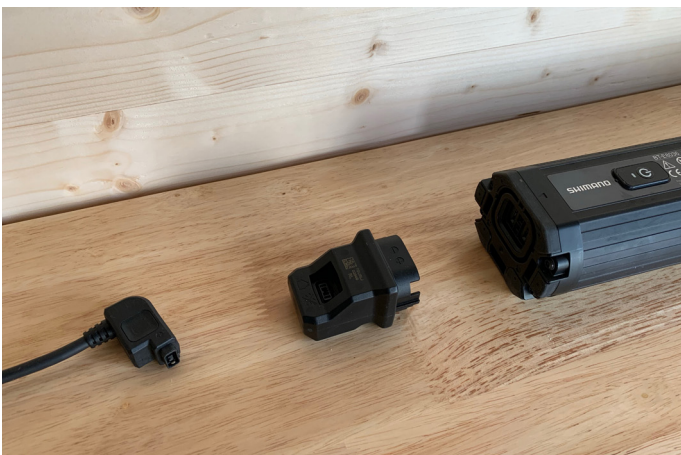

7. Refit the cover ensuring it is fully closed

## CHARGE WITH THE BATTERY REMOVED FROM THE BIKE

---

There is a separate how to guide showing the steps to removing your battery from the bike so please follow this if you are unsure how to do so

8. Get your charger, adapter and battery

9. Connect the charger to the adapter

10. Connect the adapter & charge to the battery

11. Connect the charger to a power socket and switch on

12. Ensure the light on the battery is illuminated

When the battery is fully charged, you can unplug everything then follow our separate how to guide to reinstall your battery
