

EMERGENCY RESPONSE PROVIDER PROGRAM

AMERICAN ETHANOL HOLDINGS, LLC highly recommends that its Private Label Fuel Clients work with a service providing EMERGENCY RESPONSE INFORMATION that can be accessed via a toll free number 24/7/365. Displaying your CHEMTREC 24 hr call center response number on your bottle provides additional confidence in your product by your customer. Providing your customer with a 24 hr call response center for chemical emergencies lessens your liability. The cost certainly outweighs the risk. There are several reputable companies providing such services (Chemtrec, Chemtel, Infotrac and others). However, we have trusted our business since 2011 to CHEMTREC and can highly recommend this company

Since 1971, CHEMTREC has been the chemical industry's go-to emergency call center for incidents involving hazardous materials. CHEMTREC makes chemical hazmat shipping compliance easier and reduces risk. The Emergency Response toll free number must be put on the bottle label of ethanol fuel and on the SAFETY DATA SHEET (SDS). The SDS must be sent to the Emergency Information Provider, and the SDS must be printed out and provided to the carrier for bulk shipments (not drop shipments of 6-pack and 12-pack cartons).

CHEMTREC streamlines the process of shipping and transporting hazardous materials, with professional support. CHEMTREC establishes a critical link between shippers, carriers, emergency response and medical personnel, chemical experts, and law enforcement agencies during incidents involving hazardous materials. The CHEMTREC emergency call center is 24/7/365 offering immediate assistance from a team of fully-trained and experienced hazardous materials emergency response services specialists

By registering with CHEMTREC you comply with hazardous materials regulations. CHEMTREC Emergency Service Specialists and emergency first responders, CHEMTREC will help mitigate incidents involving dangerous goods and maintain clear communication during critical phases of emergency situations and hazmat emergency response.

As a private label brand, registering your company directly with CHEMTREC assures that your branding scheme is solid. When a customer calls CHEMTREC they will use your company name and brand name closing the loop on your private label branding.

Follow these simple instructions to register your company with CHEMTREC

and obtain a quote:

1. Go to this link at the CHEMTREC site: <https://secure.chemtrec.com/home> or call (800) 262-8200
2. In order to register for CHEMTREC emergency response service, please have the following information available to you:
 - Your company name as it appears on shipping documents
 - Names, phone numbers, and email addresses for all contacts, including:
 - A Primary Contact, Billing Contact, and an SDS Contact
 - At least three Emergency Contacts
 - Report Recipients
3. Upon completion of your registration, you will receive a confirmation email which includes your CHEMTREC Customer Number (CCN), CHEMTREC emergency telephone numbers with suggested wording for your documents, and information on how to submit your company Safety Data Sheets (SDS).

NOTE! As a private label customer you are required to supply us an emergency 24/7 contact and phone number in order for us to ship any ethanol product for you. Failure to do so, will prevent your goods from being run as this needs to appear on your label. You can choose to use any company that provides this service - or provide it yourself.

Please confirm which Emergency Response Service you will use here:

Please provide your registration number with this service for identification:

Please send us contact phone number for your label (must be reachable 24/7):

If you choose NOT to use an Emergency Response Service such as CHEMTREC, we ask you acknowledge and sign the following:

I have been explained the benefits that having an Emergency Response Service

adds to my Private Labeled Ethanol Fuel Product. However at this time I choose not to take advantage of this program. I will provide my own Emergency Number for this purpose and fully understand that in the event of a medical emergency or a hazardous situation involving my company's ethanol fuel product that my company will be directly responsible for responding to such emergency on an urgent basis.
