

WASPU Omega-3 Harp Seal Oil for Pets

Reduces shedding

Healthy skin & shiny coat

Decreases inflammation

Protects the heart

Decreases Allergies

Neurological development

Contains DPA

Seal oil is one of the only sources (like mother's milk) with naturally occurring high levels of DPA.

100% Canadian

Seal oil originates from Canada's pristine waters, unlike most Omega-3 fish oil.

Preserved purity

Most Omega-3s on the market are chemically altered. Seal oil is 100% natural and pure.

Optimal absorption

Seal oil is more easily absorbed and digested by pets compared to fish oil because of its mammalian molecular structure.

The Power of DPA

Seal oil is a complete source of Omega-3 (DPA + DHA + EPA) that will keep your pet's skin and coat healthy and promote overall wellness

Guardians of the Environment

One of the guiding principles of all Indigenous people is environmental guardianship and the promotion of a balanced ecosystem.

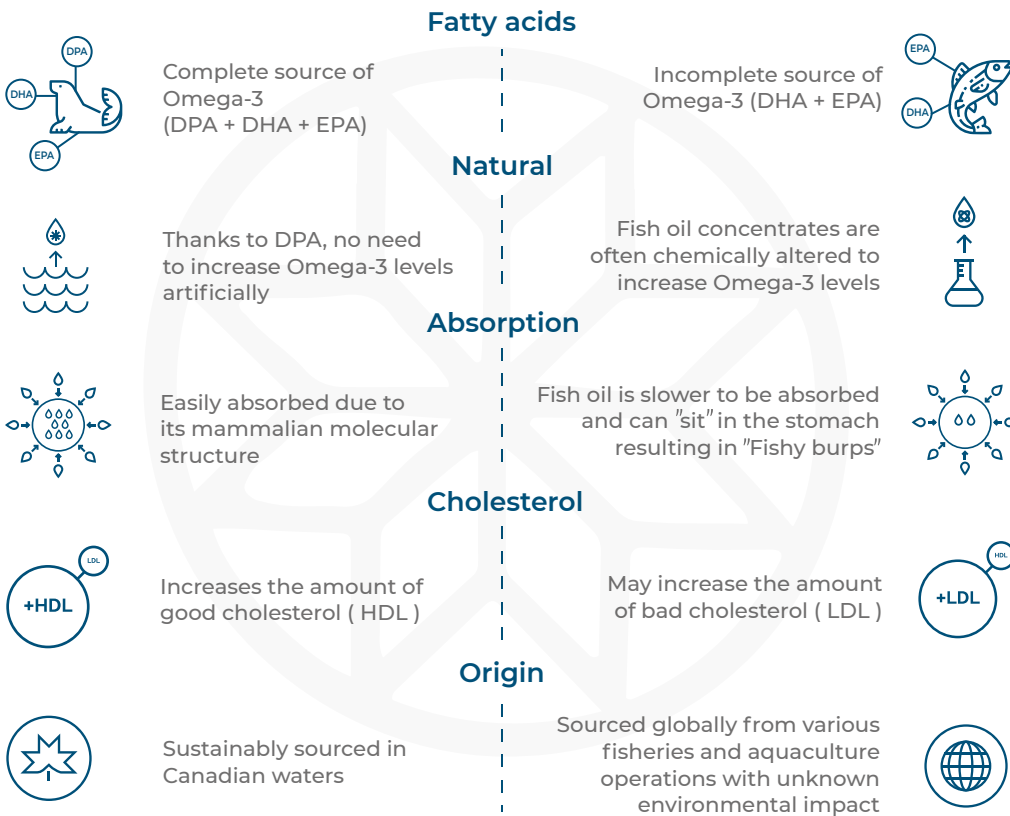

Health Canada Approved

Seal oil approved by Health Canada and is well below the most stringent industry limits for heavy metals like mercury, lead, cadmium and arsenic and the World Health Organization's limits for PCBs, dioxins and furans.

Waspu is the Mi'kmaq word for seal

Waspu (Seal) Oil is an Indigenous-branded natural health pet product, rendered from the blubber of seals, humanely and sustainably harvested from the icy waters of Canada's North Atlantic. Consuming seal oil offers a vast and diverse range of health benefits for pets of all breeds. Waspu Oil brings the goodness of the ocean to you.

Seal Oil vs Fish Oil

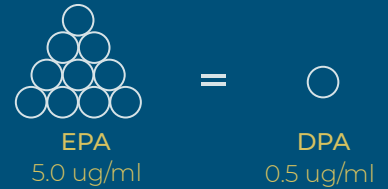

Helps repair blood vessels

Data show that DPA helps to achieve maximal endothelial migration, a critical function in repairing blood vessels*

10x more effective than EPA

Studies have shown that the same health results are achieved using just 1 \ 10th the amount of DPA compared to EPA*

Ingredients

Natural harp seal oil, alpha-tocopherol

Medicinal ingredients	Per 5 ml (1 tsp)
Harp Seal Oil	4500 mg
Omega-3 Fatty Acids	
EPA (Eicosapentaenoic Acid)	360 mg (8%)
DHA (Docosahexaenoic Acid)	270 mg (6%)
DPA (Docosapentaenoic Acid)	171 mg (6%)
Total Omega-3 Fatty Acids	1035 mg

Recommended Dosage

1 tsp = 5 ml (4500 mg)

Body Weight	Teaspoon
< 5 kg	1/4 - 1/2
5 - 10 kg	1/2 - 1
10 - 25 kg	1 - 2
25 kg	2 - 3

An Omega -3 that absorbs better!*

A scientific study has shown that after 14 days of supplementation, the total level of Omega-3s in the body of those consuming seal oil was more than 20% greater compared to those consuming fish oil*
