

Welcome to your Monarch Nappy Trial Bundle!

We've included all our best-selling nappies so you can try out the different styles and see what works best for you!

In your Trial Bundle, you will find:

1x Ultimate Nappy – fits: 4-20kg

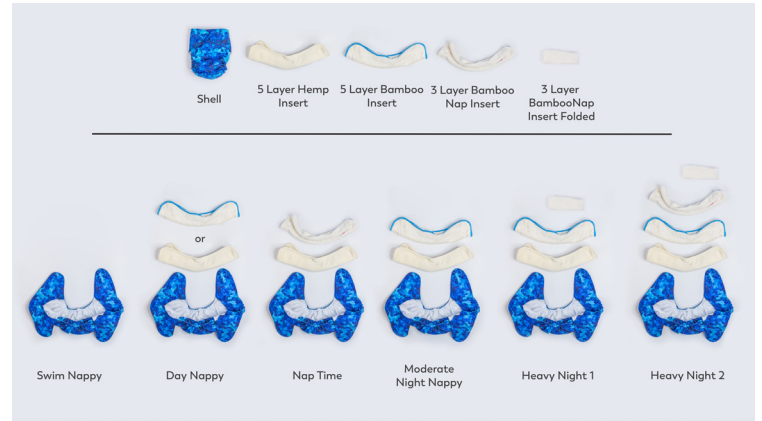

This nappy comes with 4x absorbent inserts:

- 1x 5-layer Hemp-Cotton insert (the cream-coloured one)
- 1x 5-layer Bamboo Terry insert (the blue-edged one)
- 2x 3-layer Bamboo Terry inserts (the ones with a snap in the middle)

- This nappy has a **wipeable lining** so you can easily reuse the shell for multiple nappy changes. Simply take out the soiled insert, wipe down the water-resistant inner with a wet wipe, and then snap / tuck in a clean insert.

- You can also just use the shell on its own (no inserts) as a swim nappy!

Here's a few different ways you can customise the absorbency of an Ultimate Nappy:

1x Classic Nappy – fits: 3-17kg

This nappy comes with 2x absorbent inserts:

- 1x 5-layer Hemp-Cotton insert (the cream-coloured one)
- 1x 5-layer Bamboo Terry insert (the white-coloured one)
- This nappy comes with a **athletic-wicking jersey lining** (like the material used for basketball shorts), which is a stay-dry material, keeping your baby's bum, dry and comfortable.
- You can snap the inserts in on top of the lining, stuff them into the pocket, or just lay them into the nappy.

Here's a few different ways you can customise the absorbency of a Classic Nappy:

1x Beginner Nappy – fits: 3-17kg

Can't decide between Snap or Hook & Loop closure? With the Beginner nappy, you can trial both and see what suits you best!

This nappy comes with 2x absorbent inserts:

- 1x 4-layer Bamboo Terry (more absorbent)
- 1x 4-layer Bamboo-Microfibre insert (quicker to absorb)

The *Beginner Nappy* is similar

- This nappy comes with a **suede-cloth lining** which is also a stay-dry material, keeping your baby's bum, dry and comfortable.
- You can snap the inserts in on top of the lining, stuff them into the pocket, or just lay them into the nappy.

1x Hybrid “Fitted” Nappy V2.0 – OSFM: 3-17kg / LOSFM:10-25kg

A “fitted” nappy is one that is absorbent all-over, usually used at night (as it is very absorbent) and designed to be used with a water-resistant cover. Our “Hybrid” nappy therefore combines the best of both worlds – it is absorbent all-over, but without the need for a separate cover.

This nappy was designed for the heavy wetters out there! It comes with a:

- built-in core of 4-layers of absorbent Bamboo Terry; and
- a water-resistant outer - you can add as many or as few inserts as you like!

The leg-elastics are designed to be gentle and accommodating of bulk (because a night nappy can get bulky). The frills don’t have to be tucked in, and it will not leak as long as you have enough absorbency in the nappy.

Here’s a few different ways you can customise the absorbency of a *Hybrid Fitted Nappy* (using the *Classic* and *Ultimate* inserts as reference):

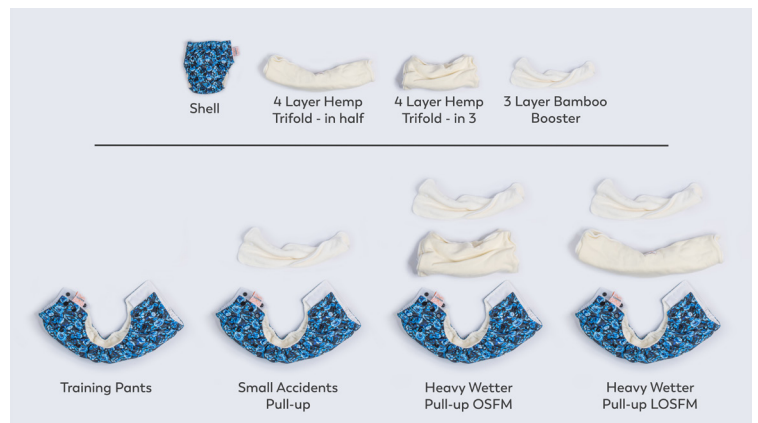

1x Pull-Up Nappy V2.0 (Option 1) - OSFM: 3-17kg / LOSFM: 10-25kg

The Pull-Up nappy can be worn with or without inserts. It is designed to be used for (1) Children that won’t lie still (snap one side, child steps in, snap the other side while they stand), or (2) Training Pants (for small accidents).

The nappy comes with an absorbent core (3-layers of bamboo terry, 1-layer of microfibre for quick absorbency) along with a pocket option so you can stuff as many or as little inserts as you want.

Note: Stuffing the nappy with inserts will make it more difficult to “pull-up”. If using as Training Pants, we recommend using without inserts, or only very thin inserts (like our *Ultimate “Nap” insert*).

1x Newborn Nappy (Option 2) – fits:2-8kg

This nappy comes with 2x absorbent inserts:

- 1x 5-layer Hemp-Cotton insert (the cream hourglass one); and
- 1x 5-layer Bamboo Terry insert (the white rectangle one)

This nappy has a **wipeable lining** so you can easily reuse the shell for multiple nappy changes. Simply take out the soiled insert, wipe down the water-resistant inner with a wet wipe, and then snap / tuck in a clean insert.

You can also just use the shell on its own (no inserts) as a swim nappy!
