

COFFE FUN FACT

TURKEY TALK !

Q:
How long has instant coffee been around?

COFFE FUN FACT

TURKEY TALK !

A:
For nearly 250 years.

Instant coffee first appeared in England in 1771, but it took another 139 years for the first mass production of instant coffee in the US in 1910.

COFFE FUN FACT

TURKEY TALK !

Q:
Where is the term “a cup of joe” coming from?

COFFE FUN FACT

TURKEY TALK !

A:
The term was inspired by GI Joes, American servicemen in WWII, who were known as big coffee drinkers.

COFFE FUN FACT

TURKEY TALK !

A:
One of only two states in the USA able to grow coffee plants is Hawaii, the other being California.

COFFE FUN FACT

TURKEY TALK !

Q:
Could coffee be chewed?

COFFE FUN FACT

TURKEY TALK !

A:
YES, COFFEE WAS ORIGINALLY CHEWED.

Sipping may be your preferred method of java consumption, but coffee has not always been a liquid treat. According to a number of historians, the first African tribes to consume coffee did so by grinding the berries together, adding in some animal fat, and rolling these caffeinated treats into tiny edible energy balls.
