

Technical Data Sheet

XDP4700

Anti-Spatter Fluid

DISCRIPTION

XDP4700 Anti Spatter Fluid is a water soluble liquid to prevent spatters from adhering to the nozzles or tips of welding devices and surfaces. It is based on the new synthetic release technology which makes it an easy and efficient product to be used. As it is a 100% soluble liquid product no mixing is required.

Being a water based product, it is not flammable and odourless. This allows it to be used in enclosed areas.

Its solubility makes it very easy to remove using water

ADVANTAGES

- Non-flammable
- Paintable
- Odourless
- Very easy to remove from surface, thus grinding is not necessary
- Non silicone base
- Contains no mineral oil or solvents

PHYSICAL CHARACTERISTICS

Aspect: Liquid

Colour: Blue

Density: 1.01 g/cm³

Flashpoint: Non-Flammable

Freezing point: -15 °C

APPLICATION

XDP4700 Anti Spatter Fluid is applied directly by brush or sprayed onto the surface to be protected. Spatter falling on treated surface can be easily removed.

SECURITY

Product is harmless. See Safety Data Sheet for more information

STORAGE

Store the product in an area with controlled temperature between 5° C - 40 ° C

Life in unopened packaging: 1 year
