

ANAZOLIC®

NATURAL APPETITE STIMULANT

Active Ingredient: Gamma-Oryzanol, a plant extract derived from rice bran.

Stimulates & maintains the appetite.

Supports the development of lean muscle.

Ideal for horses in heavy work or training.

ANAZOLIC®

NATURAL APPETITE STIMULANT

Anazolic® is a concentrated source of Gamma-Oryzanol. Gamma-Oryzanol helps stimulate the appetite and promote the development of lean muscle mass in horses.

Gamma-Oryzanol is a natural, plant derived anti-oxidant, which has been shown to be anabolic and have a protective effect against stress-induced stomach ulcers.

Anazolic® is a valuable nutritional tool for:

- Horses with reduced appetite in heavy work or racing
- Yearlings being prepared for sale
- Horses that require more topline and muscling

Active Ingredient.

Gamma-Oryzanol 20mg/g

Proudly Australian Made

p. (03) 5943 2255
