

SUPER ANTI-OX®

A UNIQUE COMBINATION OF POWERFUL ANTIOXIDANTS KNOWN FOR THEIR SUPPORT OF TENDONS, MUSCLES AND SOFT TISSUES

Combination of 3 proven natural antioxidants:

Superoxide dismutase - derived from rock melon (cantaloupe)

Proanthocyanidins - derived from red grapes

Curcumin (from turmeric)

SUPER ANTI-OX[®]

A UNIQUE COMBINATION OF POWERFUL ANTIOXIDANTS KNOWN FOR THEIR SUPPORT OF TENDONS, MUSCLES AND SOFT TISSUES

A high strength curcumin based antioxidant formulation combining 3 distinct, naturally derived, antioxidants known for their support of muscles, tendons, ligaments and joints for horses undertaking strenuous exercise or racing.

The equine athlete's large muscle groups, coupled with the intense physical demands placed on tendons, ligaments and joints, underscore the requirements for optimal blood levels of critical antioxidants.

Contains activated water soluble and bioavailable Curcumin (from turmeric), Superoxide Dismutase and Proanthocyanidins. Suitable for horses of all ages, especially those in hard work.

Active Ingredients.

Each 30g (1oz) contains:

Ensorb[®] Curcumin Soluble Micelle 2,000mg,
Acti-meal[®] Proanthocyanidins 64mg,
Melofeed[®] Superoxide Dismutase (520 IU)
206mg.

Inactive Ingredients.

Each 30g (1oz) contains:

Acti-meal[®] Inactive component 24.7g,
Zeolite 3g, Molasses flavour 30mg,
Sucram C150 sweetener 30mg.

Directions for use.

Dosage, as a guide 30g (1oz) per 500kg (1100lb) bodyweight per day.

The scoop supplied holds approximately 30g (1oz).

Guaranteed Analysis, per kg:

Curcumin soluble micelle (min) 66,666 mg,
Proanthocyanidins (min) 2,133 mg,
Superoxide Dismutase (min) 17,333 IU.
