Preparation:

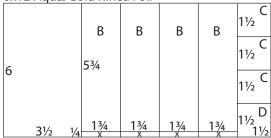

Trim the printed cutaparts and papers into sections as indicated by the artwork or detailed instructions. While trimming the cutaparts and papers, distribute the pieces to a pile or file designated for each card set as referenced in the diagram.

Leave the tissue paper on the transparency film and trim horizontally at 6 and 3". Cut each 3x8.5 horizontally at 4.25 to create four 3x4.25" pieces, one for each shaker card in Set A.

If there is an arrow on the paper trimming diagram, make sure the paper grain dips easily in the same direction as the arrow when placing the paper into the trimmer.

Inside: "Enjoy

Assembly steps for all cards:

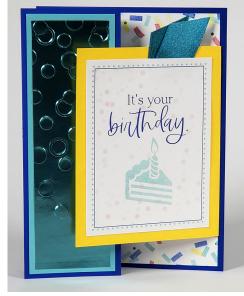

Pierce through the center of the frame on the outer cutapart with a craft knife or paper piercing tool. Cut from the center to the four corners of the frame. Use a ruler to protect the edge of the frame and tear away the center in four triangular pieces. (A die cut or punch can also be used.) Temporarily center the cutapart onto the 3.25x4.5" panel and adhere the sentiment within the window. Flip the cutapart to the plain side and cover the window with transparency film. Add a perimeter of foam adhesive around the edge of the cutapart and remove backing. Carefully pour in a small amount of confetti and center the 3.25x4.5" panel on top of the cutapart to trap the confetti in the window. Add a twist tie or ribbon, and nest the frame onto the 3.75x5" panel and folded card base. Add a sentiment to the inside of the card.

Emboss the 1.75x5.75" Foil paper with a texture folder and nest onto the 2x6" panel. Wrap the bottom edge with yellow ribbon on card one, and center the nested panels onto the narrow flap. Add a cutapart onto the front and back sides of the Yellow right card flap, adding a piece of folded ribbon to the top right corner of the cutapart, if desired. If needed, add a 3x4" panel to the inside of the card to allow for a hand-written greeting.
