Assembly steps for all cards above: Add texture to the 4x5.75" panel with an embossing folder and machine, if desired. Center the panel onto the folded card base. Nest a yellow strip onto a white strip and layer on the card. Center the cutapart onto the panel and finish with a bow made from the saddle stitched ribbon.

Set C: 5x7" Pocket Cards

Inside: "Have a happy day."

Assembly steps for all cards: Fold back on the 1/2" scored area of the 5x6" scored pocket paper. If desired, punch the folded edge of the paper at center (3") with an envelope punch board. Miter the two remaining corners and fold along the 3/4" score lines to create three tabs. Tuck in the side tabs first, and then bring up the bottom tab. Apply glue to the tabs and center the pocket onto the bottom of a 5x7" card base. Round the top corners of the 5x7" card base with a Corner Chomper on the 1/2" setting. Remove the top corners of the cutapart tag with scissors or a ruler, craft knife and cutting mat. Nest onto two additional panels, trimming the corners each time. Punch a hole in the top of the tag and add ribbon to the top. Insert the tag into the pocket. Embellish the card and pocket as shown.

Inside: "Have a happy day."   *Inside: "Have a beautiful day."*   *Inside: "Have a beautiful day."*

(2) Card Folios

Assembly steps for folios: After preparing the folio papers as indicated in step two of the paper trimming instructions, glue the tabs in place to form two angled pockets. Round the top corners of the folio with a Corner Chomper on the 1/4" setting or with a corner rounder punch. Punch the upper right corners of each folio panel, nest together, and center onto the folio. Add the cutapart image to the upper center. Nest the narrow belly band strips together with glue. Fill each pocket with two cards and envelopes to provide stability, and wrap the belly band around the folio. For best results, place the seam of the band at the center on the front of the folio, and cover the seam with a fussy-cut daisy or tag/charm combination.
