## Preparation:

Trim the papers and cutparts into sections as indicated by the detailed instructions. While trimming, distribute the pieces to a pile or file designated for each card set as referenced in the diagram. *Prior to trimming the cutparts, remove approximately 1/8" from the perimeter of each sheet, using the intersecting guidelines on each corner as a cutting guide.*

If there is an arrow on the paper trimming diagram, make sure the paper grain dips easily in the same direction as the arrow when placing the paper into the trimmer.
