Trim the papers and cutparts into sections as indicated by the detailed instructions. While trimming, distribute the pieces to a pile or file designated for each card set as referenced in the diagram. *Prior to trimming the cutparts, remove approximately 1/8" from the perimeter of each sheet, using the intersecting guidelines on each corner as a cutting guide.*

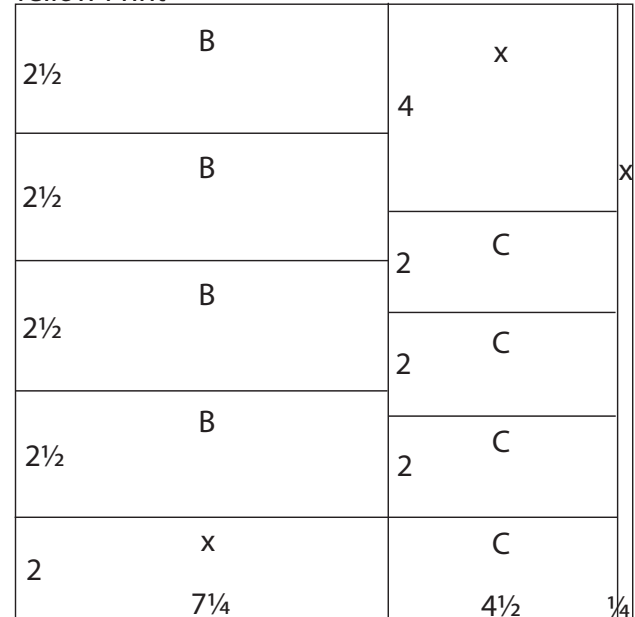

If there is an arrow on the paper trimming diagram, make sure the paper grain dips easily in the same direction as the arrow when placing the paper into the trimmer.

Set C: 5x7" Cards

Assembly steps for all cards: Crease on all score lines of the 5x7" panel; adhere one 1/2" scored area to the same edge on a non-scored 5x7" panel. Nest the five corresponding panels onto the scored areas on the front of the card. Nest a second 2x4.5" panel onto the center section. Layer a 1.5x3" cutpart onto a 3.25x3.75" panel and adhere to the center panel only. Nest the circular cutpart onto a kraft tag, add ribbons, and adhere. Open the card and add a 4x4.75" and 2.25x4.75" panel to the inside of the card.

Nest the inner cutpart sentiment onto a 1.75x3.25" panel. Add foam adhesive to the back of the nested sentiment in the vertical center of the panel only and center onto the 2.25x4.75" panel on the inside of the card.

Tuck the 1/2" tab on the right side of the card behind the inner sentiment to create a "bay window" effect when the card is on display. Remove the tab from behind the sentiment to flatten the card for mailing.
