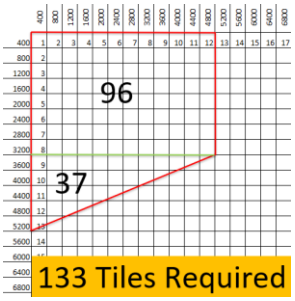
DURANTE TILE Counting Guide



Work out the exact number of tiles for your area by doing the following:

1. Sketch out your area on the matrix below as shown in the example on the right:
2. Count the number of squares (they correspond to 1 DURANRE Tile).
3. Tile offcuts cannot be reused.
4. Ramps are 60mm wide, add corner pieces where ramp edges meet.

If you are confident with your count, **complete your purchase**, adding the n.o. tiles to cart: Shop Now

Always start with ramp edges on the outside if there are any, so the cut tiles will be against walls.
