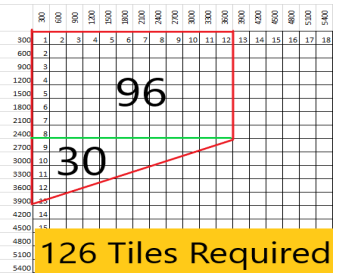
DECKING TILE Number Counting Guide



- Work out the exact number of tiles for your area doing the following:
  1. Sketch out your area as advised on the right on the matrix below.
  2. Count the number of squares (they correspond to 1 DECKO Tile).
  3. Tile off-cuts can be reused rotating around if the size is enough.
  4. Ramps are 80mm wide, add corner pieces where ramp edges meet
- If confident with the count, **complete your purchase,** adding the nr. of tiles to cart: **Shop Now**
- **Always start with full tiles (or ramp edges) on the outside** - cuts near the walls of building. •

For assistance: sales@decko.co.nz or call **+61 412 937 798,** SMS, **WhatsApp** or **Messenger**.
