Social Connection & Press	60

Our mission is to elevate strength training. With more than 30 years of experience in this field, Harbinger leads the strength training category in gloves, belts and accessories. Strategic design and high-quality materials make Harbinger the trusted strength training brand of choice for all performance levels.

# OVER 30 YEARS OF EXPERIENCE

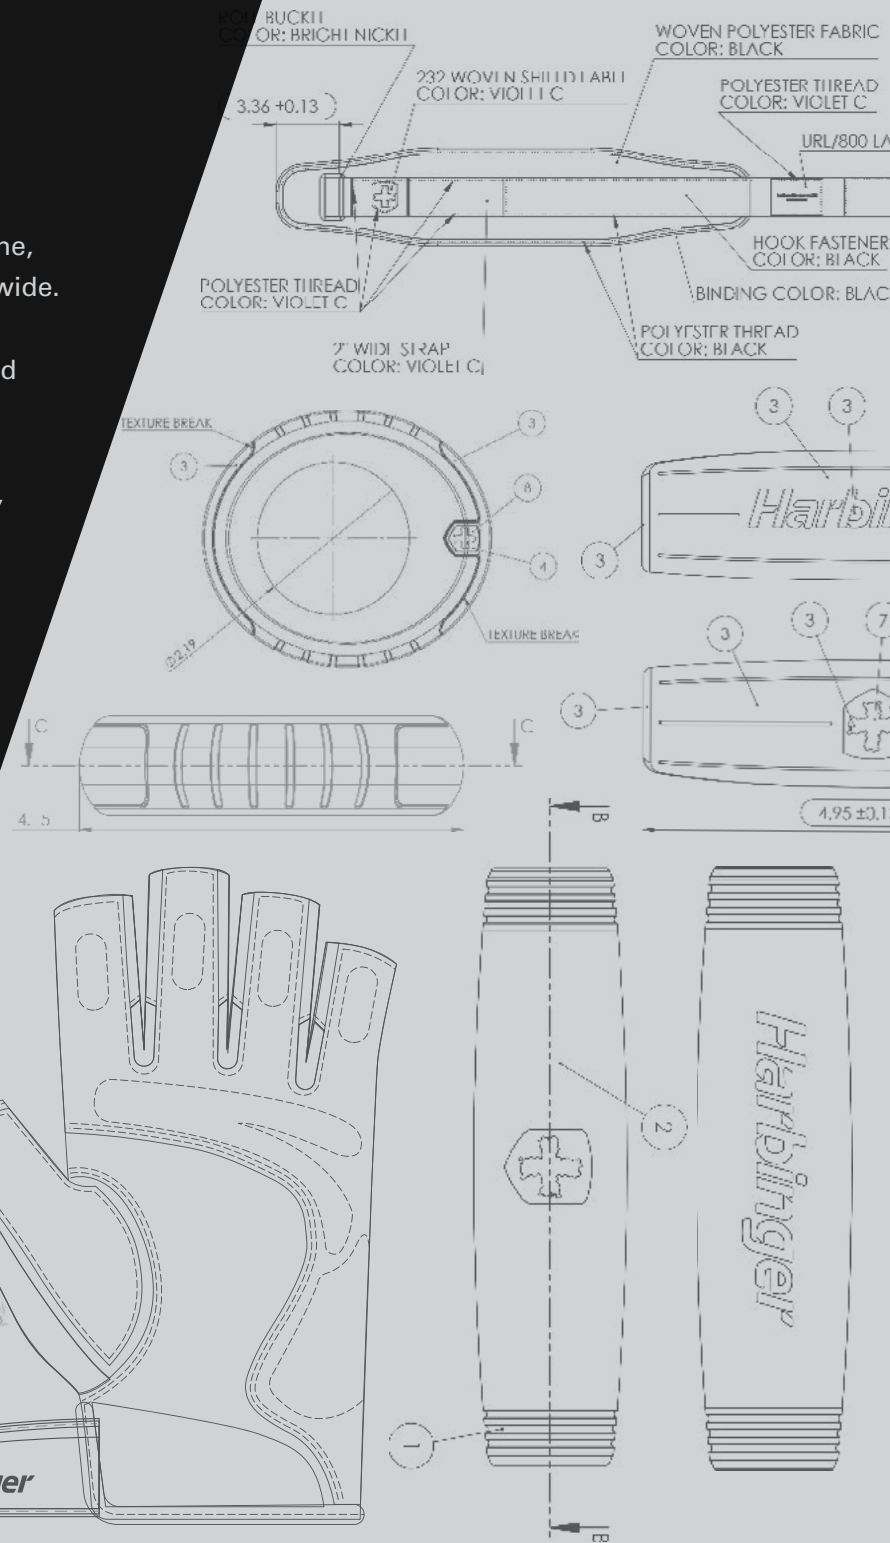

Founded in 1988 by fitness enthusiast and entrepreneur David McCrane, Harbinger swiftly became the brand of choice for weight lifters worldwide.

It began with an innovative Wrist-Stabilizing Glove. Originally intended to mitigate wrist injuries for skateboarders, McCrane quickly realized the benefit of the Wrist-Stabilizing glove for the strength training industry. Teaming up with 8-time Mr. Olympia bodybuilder Lee Haney, they pioneered Harbinger as the source for high quality, carefully engineered gloves and belts.

Since then, Harbinger has expanded into strength training accessories, including wraps, straps and bar grips. With proprietary technology and advanced design, Harbinger drives the category and continues to deliver new, innovative products.

In 2013, Harbinger introduced functional fitness products, including weight vests and speed ropes, designed to enhance fast-paced workouts.

Today, Harbinger Fitness is part of Implus LLC organization which has more than 30 years of experience. The Implus Fitness & Wellness Division manages category-leading brands renowned for superior quality, innovative design and heritage. Implus proudly distributes in over 75,000 retail outlets across North America and in over 70 countries worldwide. Implus' scale and reach helps make Harbinger products broadly available across the United States and internationally.

**1988**  
Harbinger founded with Wrist-Stabilizing glove as first product

**1990**  
First belt launched, the Lee Haney Kevlar Weight Training Belt

**1993**  
Millionth glove sold

**1998**  
Patented Wash & Dry leather technology

**2002**  
Women's line launched

**2013**  
Introduced functional fitness products

**2015**  
Acquired by Implus LLC

## GLOVE SIZE CHART

Measure the circumference of your flat hand just under the knuckles (not including your thumb). **Our gloves should fit tight.** The real leather is designed to stretch over the life of the glove. If you are in-between sizes, we recommend you select the larger of the two sizes. If you prefer a looser fitting glove, buy one size larger than you typically wear.

### HARBINGER GLOVES

	XS	S	M	L	XL	XXL
MEN	6.5" - 7" 16.5cm - 17.8cm	7" - 7.5" 17.8cm - 19cm	7.5" - 8" 19cm - 20.3cm	8" - 8.5" 20.3cm - 21.6cm	8.5" - 9.5" 21.6cm - 24cm	9.5"+ 24cm+
WOMEN	6" - 6.5" 15.2cm - 16.5cm	6.5" - 7" 16.5cm - 17.8cm	7" - 7.5" 17.8cm - 19cm	7.5" - 8" 19cm - 20.3cm	-	-

## BELT SIZE CHART

When purchasing a new strength training belt, it is important to measure yourself correctly. **Do not use your pant size to determine the size of your belt.** Use a tape measure around your waist, between your hips and ribs. Circle around the waist so you start and stop on belly button. **Our strength training belts are designed to be worn tight around one's waist.** The more secure the belt, the more support and stabilization it provides. If you prefer a looser fit, buy one size larger.

## FITNESS

Versatile, all-purpose gloves and accessories collection combines strength and cardio options for consumers with well-rounded general fitness goals. Fitness shoppers typically want to improve appearance, get in shape, and have more energy for daily life.

## LIFTING

Rugged and durable, the Lifting collection provides a broad range of best-selling gloves, belts, straps, wraps and training aids for weight lifting. Lifting shoppers typically have training goals of building strength and muscle size, and often strength train as their primary form of physical activity.

## HEAVY LIFTING

Our toughest and most supportive gloves, belts and accessories, the Heavy Lifting collection provides substantial support for serious training. Heavy Lifting shoppers typically have competitive training goals to set PRs, max out and advance in weight classes. Often, Heavy Lifting shoppers compete at the amateur or semi-pro level, and strongly identify with lifting weights as a lifestyle.
