

A newborn baby with dark hair and blue eyes is lying in a light-colored woven basket. The baby is wearing a white long-sleeved onesie with a small, scattered pattern of green leaves, yellow flowers, and red berries. The basket has a white circular insert and a wooden frame. The background is a textured, light brown surface.

# ASTHMA & ALLERGY FRIENDLY™

We voluntarily submitted our products to **Allergy Standards Ltd.** (ASL) for testing and certification to give you 100% peace of mind. So when you buy a **ClevaMama®** Product that bears the asthma & allergy friendly™ logo you are buying a product that meets scientific standards to help with indoor air quality, dust mites, pollen, and other asthma and allergy triggers.

## WHAT TESTS HAVE THESE PRODUCTS UNDERGONE?

### Allergen Barrier

The fabric on the outside of the product can stop dust mites and dust mite allergen from passing through to make contact with your skin.

### Allergen removal by washing

The product is seeded with allergens, then washed/ cleaned and tested to make sure that the allergens have been removed.

### Quality of the Product

Our products were tested by washing multiple times to make sure that they maintain their shape and appearance.

### Chemicals and VOCs

Any chemicals that are known to be irritants to the skin are either not present, or present at such a low level that they are unlikely to cause a problem.

These tests ensure that the certified products help to reduce indoor asthma and allergy triggers and don't contribute to any worsening of indoor air quality.

## UNDER THE SEA | Bathtime Range

Dive into the depths of the ocean and explore our new bath time range of super soft baby bath towels, our new **ClevaBath™** and other accessories to make bath time blissful.

# CLEVABATH™

The **ClevaBath™** is the first ever bath which fully transforms the kitchen sink into a happy baby bath. A revolution in bath time, it's created to give peace of mind to parents, making bathing safer for baby and so much easier for you.

Designed to sit over any standard sink, it provides the ideal height for you for bathing your baby, meaning no bending over the main bath. With a soft, flexible and perforated basin, there's no heavy lifting or draining tubs filled with water and no water mess or spills. Just easy and gentle bathing for your new baby.

## DID YOU KNOW

Less water

The average bathtub can hold around 80 litres of water, while the average sink holds 20 litres. So when you choose to bathe your baby in your sink you are using less water!

**Over a year, this could add up to a saving of over 8000 litres of water.**
