FISHERMAN IS A RESPONSIBLE PRODUCER

Westfjord is a unique fishing and fish farming area with small green sustainable villages. The cold water comes directly from the mountains, the electricity is hydroelectric powered by waterfalls and hot water is heated geothermally.

In our 20-year history we have constantly been working in improving how we deliver high quality fish to our customers, treat mother nature with respect and build up the society we live in. We are therefore proud to say that we are MSC and ASC certified.
