## CHRISTMAS CHEVY

### COLOR CHART

Here comes Santa over the hills and through the woods on his way to Grandma's cabin in his trusty old blue Chevy. There is plenty of room for colorfully wrapped gifts and a huge Christmas tree. What a delightful embroidery design for a holiday table runner.

I digitize my designs using PE-Next(PES) and Floriani software programs. I use Isacord thread to test sew all of my designs. Thread colors can change during format conversions so it is important to use this color chart for correct color placement. The colors I use to digitize the design are not necessarily the colors that I embroider the design with. I have listed the color of thread that I embroidered the design with.
