#PB20-Medium-30405 stitches
#PB30-Large-37119 stitches

I digitize my designs using PE-Next(PES) and Floriani software programs. I use Isacord thread to test sew all of my designs. Thread colors can change during format conversions so it is important to use this color chart for correct color placement. The colors I use to digitize the design are not necessarily the colors that I embroidered the design with. I have listed the color of thread that I embroidered the design with.
