

INDUCTIVE SENSORS

WASHDOWN

Certified to operate continuously and reliably in the harsh conditions of the food, beverage and pharmaceutical industries, WASHDOWN sensors are available in conventional Classics or Full Inox technology. With Ecolab approval and rated to IP68 and IP69K, they are pressure resistant up to 80 bar, food safe and corrosion resistant. Full Inox types have a totally impervious one-piece housing in stainless-steel (V4A/AISI 316L), including the sensing face. They are therefore highly resistant to the corrosive chemicals used for clean-in-place or washdown processes.

KEY ADVANTAGES

- ✓ Corrosion resistant
- ✓ Food safe
- ✓ IP68/IP69K protection
- ✓ Extremely rugged Full Inox types: one-piece stainless-steel housing, factor 1 on steel and aluminum, Ecolab approved
