

Congratulations on your purchase of the 'Ove' Glove® Hot Surface Handler. You will find the 'Ove' Glove® useful not only when cooking, but for other projects around your home during which you come in contact with hot objects. The 'Ove' Glove® is not a permanent protection against heat and flames, but can extend the amount of time you are able to hold a hot object.

### **WASHING INSTRUCTIONS:**

Machine wash in warm water. Do not use bleach. Air dry only. Bleach will degrade the performance of our aramid fibers.

### **WARNING:**

- Make sure to wash the 'Ove' Glove® when it gets dirty. Flammable materials can accumulate on the surface and compromise the heat resistance of the 'Ove' Glove®.
- The 'Ove' Glove® is not waterproof. Please use extra caution around hot liquids and steam. Do not use the 'Ove' Glove® if it becomes wet. Allow 'Ove' Glove® to dry thoroughly before use.
- Can result in injury if not used according to instructions.
