

VII

Speeder EVOLUTION VII

**THE ULTIMATE HERITAGE
OF PERFORMANCE**

The all-new Speeder Evolution VII continues the Speeder heritage incorporating the multi-material construction created in Speeder Evolution VI. EVO VII utilizes Pitch 70 ton Woven Carbon Fiber to reduce twisting at impact and Fujikura's MCT® (Metal Composite Technology) positions the balance point for stability to help maintain and improve ball speed. Designed as a mid launch profile, EVO VII provides golfers with a higher launch than EVO VI and lower than EVO V.

 **Fujikura**

THE WORLD'S BEST PERFORMANCE GOLF SHAFTS

SPEEDER EVOLUTION VII

Evo VII features a mid launch and spin that fits perfectly between Evo VI and Evo V.

TECHNOLOGIES

Multi-hoop plied structure - Internal and external hoop layers provide strength, preventing ovalization and increasing stability.

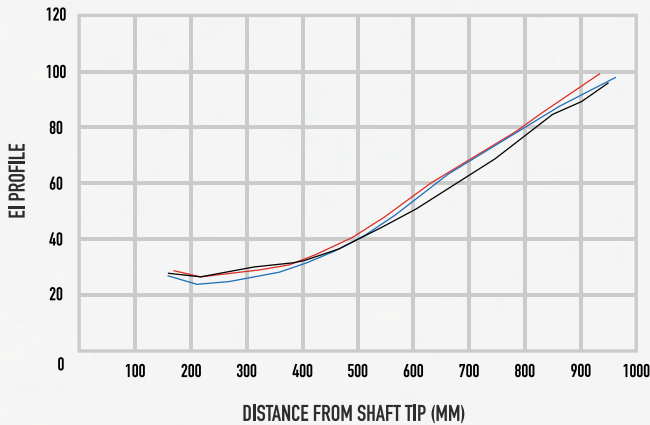

MAXIMUM CARBON FIBER CONTENT

PITCH 70 TON WOVEN CARBON FIBER

METAL COMPOSITE TECHNOLOGY

- EVO VII 661X
- EVO VI 661X
- EVO V 661X
