

# PROFESSIONAL K-9 HARNESES

- MAKO HARNESS [ARMOURED]
- TACTICAL HARNESS

## SPECIFICATIONS

### Mission Adaptable

PALS strips for MOLLE compatible accessories and a Velcro device panel provide a platform for various attachments such as camera mounts to suit mission requirements.

### Lifting/Lowering capability

V-Rings independently tested to 2500Lbs provide attachments to quickly and securely prepare the K9 for hoisting, fast-roping, or deployment from aircraft (sold separately)

### Armour/Cooling Inserts

Concealed interior side pockets for removable soft armour inserts or cold packs  
\*MAKO™ Version ONLY (sold separately)

### Materials

HYPALON®  
MILSPEC Webbing and Velcro  
Heavy duty mesh  
AustriAlpin COBRA® quick release buckles

### Weight

Approx. 1.5kg (excluding accessories)

### Sizing

Small, Medium and Large  
(custom sizes available)  
Suitable for medium to large breed dogs and adjustable for a custom fit.

The Sabre Tactical K-9 Harness is an innovative full body dog harness which can quickly adapt to suit mission requirements. Whether the task involves patrolling, tracking, apprehension, infiltration, extraction, or elevated risk, the harness offers the required fit, form and functional performance.
