HIGH-TORQUE WATERPROOF METAL GEAR SERVOS

OVER **3X*** THE TORQUE

330
CORELESS
HEAVY DUTY

400
BRUSHLESS
EXTREME DUTY

For the ultimate experience in precision steering authority, two new high-torque metal gear waterproof servos are available from Traxxas. Traxxas high-torque servos are designed for a factory fit in 1/10 Traxxas vehicles and both servos feature full metal gears, dual ball bearings, and waterproof cases with aluminum center sections for added heat dissipation. Both servos are designed to work flawlessly with Traxxas Stability Management for laying down maximum power on any surface. The **High-Torque Blue 330** is powered by a coreless motor for 24 kg-cm (330 oz-in) of torque and 0.19 transit time. For optimum control and responsiveness, the **High-Torque Red 400** uses brushless motor technology for a massive 29 kg-cm (400 oz-in) of torque and 0.15 transit time.

TOTAL STEERING AUTHORITY FOR THESE MODELS AND MORE:

- FACTORY FIT
- DUAL BALL BEARINGS
- ALUMINUM CENTER CASE

*2255 servo compared to 2075 servo.

HIGH-TORQUE 330 WATERPROOF METAL GEAR SERVO

HIGH-TORQUE 400 WATERPROOF METAL GEAR SERVO

SPECIFICATIONS	
Motor Type	Coreless
Operating Voltage	6.0 - 7.4V DC
Torque	24 kg-cm (330 oz-in) 0.19 transit time @ 6.0V
Speed	0.19 sec/60°
Weight	64g
Gears	Metal
Output Spline	25T
Case	Plastic top/bottom, anodized aluminum center
Controller	Digital

- Factory fit for drop-in installation into Traxxas models
- Waterproof
- 24 kg-cm (330 oz-in) of torque and 0.19 transit time
- Metal gears
- Dual ball bearings
- Coreless motor technology
- Aluminum center case

SPECIFICATIONS	
Motor Type	Brushless
Operating Voltage	6.0 - 7.4V DC
Torque	29kg-cm (400 oz-in) 0.15 transit time @ 6.0V
Speed	0.15 sec/60°
Weight	64g
Gears	Metal
Output Spline	25T
Case	Plastic top/bottom, anodized aluminum center
Controller	Digital

- Factory fit for drop-in installation into Traxxas models
- Waterproof
- 29 kg-cm (400 oz-in) of torque and 0.15 transit time
- Metal gears
- Dual ball bearings
- Brushless motor technology
- Aluminum center case

WATERPROOF NOT "WATER RESISTANT"

There is a major difference between "water resistant" and waterproof. Traxxas High-Torque servos are completely waterproof to give you the freedom to run when you want, where you want. Power through streams and bogs without fear while trucks with "water resistant" servos are stuck on the sidelines.

FOR TRX-4 INSTALLATION

Traxxas High-Torque servos represent a huge power upgrade for the TRX-4. **When installing either servo, it is required that you use the High-Voltage BEC kit (#2262) and a steel servo horn (#8247X) is recommended.** Installing the BEC is easy with plug and play simplicity. The kit includes a larger receiver box cover to maintain total waterproof integrity and a Y harness for vehicles with LED light kits.

Part #	Description
2250	High-Torque 330 Waterproof Metal Gear Servo
2255	High-Torque 400 Waterproof Metal Gear Servo
2262	High-Output BEC Coming Early October
