**USER  
MANUAL**

**NO FLY ZONE**

**UV INSECT TRAP**

**Please read all instructions  
prior to use.**

## **GENERAL**

Please read these instructions carefully before using and installing your No Fly Zone.

Store and keep these instructions in a safe place for future reference.

Any changes and modifications done to the unit might make it unsafe to use. It may also cause damage or personal injury to modify the unit. This product is intended for domestic use only.

## **HOW OUR NO FLY ZONE WORKS**

Stop flying insects from taking over your home with the No Fly Zone. Our innovative device features a warm UV Light that lures and attracts flies, mosquitoes, and other insects to a sticky trap attached to it. The ultra strong sticky pad captures flies for good, stopping them from bugging you and your family.

Free of pesticides and other chemicals, the No Fly Zone is a safe and efficient eliminator of insects suitable to use around your children and pets. Plus, it's designed with a rotating plug making it a versatile device suited for any standard outlet in your home.

24/7 protection for you and your family!

# IMPORTANT SAFEGUARDS

**WARNING** – When using electric appliances, basic precautions should always be followed, including the following:

1. Read all the instructions before using the appliance.
2. To reduce the risk of injury, close supervision is necessary when the appliance is used near children.
3. Do not contact moving parts.
4. Only use attachments recommended or sold by the manufacturer.

## **INSTRUCTIONS PERTAINING TO A RISK OF FIRE, ELECTRIC SHOCK, OR INJURY TO PERSONS:**

5. Do not use outdoors. For Household and Indoor use only.
6. To reduce the risk of electrical shock, do not put the body of appliance in water or other liquid. Do not place the device near flammable materials. Do not place or store appliance where it can fall or be pulled into a tub or sink.
7. To disconnect the device, carefully remove it from the power outlet.
8. For safe use, plug the device only into exposed wall outlets where it is well ventilated and cannot be covered by other materials.
9. Do not use the device if it has a damaged plug, the device is not working properly, has been dropped or

damaged, or if it has been dropped into water or any other type of liquid.

10. Do not clean or spray the unit with water, cleaning spray or any other type of liquid.
11. Do not plug the device into an extension cord.
12. Collected insects from the unit may cause fire hazards, replace the sticky pad as often as needed.
13. To reduce the risk of electric shock, unplug before cleaning or servicing.
14. This appliance is to be connected to a circuit operating at 150V or less to ground.
