How to Find Your Ring Size

Before printing: Make sure that this page is scaled to 100% and printed on A4 size paper.

If the line on the right is exactly 5cm, you're good to go!

Option 1: Measure an existing ring

Step 1

Print this document out to 100% (A4 size). Check the printed size by measuring the line above. It should be exactly 5cm.

Step 2

Check which circle beneath matches the size of your ring. Make sure that the black circle is only visible within the ring.

Step 3

If the ring is in between two circles (sizes), we recommend the larger size.

Option 2: Measure your finger

Step 1

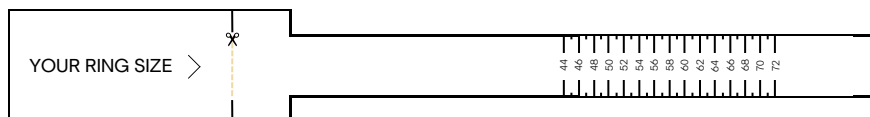

Print this page on a A4 paper and cut out the Finger Sizer below.

Step 2

Cut the small gold line.
Wrap the sizer around the largest part of your finger and make sure it is tightened.

Step 3

Read your ring size from the sizer. If the ring is in between two circles (sizes), we recommend the larger size.
