

DRIFT BOTTLE HUMIDIFIER

USER MANUAL USER MANUAL USER MANUAL USER MANUAL USER MANUAL

Mist diffusing hole

Waterproof decorative sheet
Remove to access on/off button and micro-USB port.

On/off button
Press once to turn the humidifier on.
It will automatically turn off after 4 hours.
Press again for intermittent spray mode.
It will automatically turn off after 8 hours.
Press a third time to turn the humidifier off.

Micro-USB port

- Add water to a container (bowl, cup, whatever you prefer!)
- Place the humidifier inside the container. Wait for the cotton wick* inside the humidifier to fully soak up water.
- Remove the decorative sticker and press the button to turn on the humidifier.

* We recommend replacing the cotton wick every month. Additional cotton wicks can be purchased directly from multitasky.com.

WARNINGS

- Do not touch the mist diffusing hole to prevent congestion.
- When replacing the cotton wick, do not remove the inner spring (humidifier will not work without the inner spring).
- Do not add hot water and do not fill up the container fully (90% full is the maximum level)
- Wait 10-15 minutes for the cotton wick to soak up water fully before using
- Only use tap water - not filtered or distilled.
