Specifications:

MODEL 10961

ESCO

We Keep Your Equipment **MOVING**

The ESCO Digital Tire Inflator (Model #10961) is a handheld tire inflation unit designed for professional and hobbyist applications. The easy to read/measure digital style inflation unit can be switched from psi, bar, Kpa, kgF, with the push of a button, making it ideal for multiple markets across the globe.

Constructed of a lightweight aluminum die-cast body, covered by a protective rubber sleeve, this unit is designed for maximum protection/strength as well as comfort for extended use in the shop or at home. With an accuracy rating of +/- 2 psi and a 1-year warranty, this professional inflation unit is perfect for any inflation application.

Easy Operation Handle for inflation and releasing air when needed.

Above & Beyond the Competition...

PROFESSIONAL GRADE

Designed with the highest quality parts and components to withstand use in tire shops, at home, or in many other inflation applications.

QUALITY GUARANTEED

Built to the highest quality standards, all ESCO inflation products are backed with a 1-year lifetime warranty against improper function or manufacturer defects.

CALIBRATED FOR ACCURACY

Each inflation unit has been calibrated in its normal working position on testing equipment to ensure accuracy.

EASY TO USE

All ESCO inflation products are designed to be "Professional Ready" and "User-Friendly", insuring both quality and ease of use of the inflation line.
