PRODUCT FEATURES

- The **TC-100 Tire Cutter** is a versatile tire cutter that is used by tire shops, services stations, landfills, auto salvage yards and retread plants.
- The patented double shear blade system is easily adjustable to maintain a zero clearance between the blades for a clean cut. The double shear blade system eliminates blade separation and greatly extends blade life.
- The TC-100 is a portable unit that can be easily transported to tire salvage piles. Contains a 2" ball hitch and safety chains. Trailer lights are optional.
- Cut tires can be stacked within each other (nested). This method reduces the volume of a tire pile by up to 75%.
- Reduce transportation costs by shipping more condensed loads using cut tires.

OPTIONAL PRODUCTS
