

# Built In Overlap (BIO)

BIO are flat edges on the top and right sides of MirroFlex panels. By orienting all sheets in the same direction and overlapping the panels, the seams are less noticeable. When overlapping four MirroFlex panels, it is necessary to cut a ½" notch in panels 2 and 3 to avoid a bulge where the panels meet.

BIO Flat Edges Top & Right

# Bead + Button (B+B)

Some MirroFlex patterns have a Bead + Button feature. To install, overlap two or more sheets or tiles on the Bead + Button perimeter which will join at the pre-determined connection points.
