Product Specifications for S2220 Single Wrist Strap Monitoring System

Description

The S2220 is a small and precise capacitance-base device for monitoring the standard single-conductor wrist grounding straps. The system constantly checks the integrity of wrist strap for internal built-in 1 meg ohm current limiting safety resistor, skin contact, when worn, continuity and Ground connection. NIST Certified.

System includes:

- The Monitor
- Power Supply with North America plug configuration (also available with International Power Supply)
- 1 Pc of Hook & Loop Velcro
- 2 Screws
