

Measures 99.5cm (~100cm)

kraftile

Hexagon tile (flat top orientation) with dark grey grout template

This template can be printed out and coloured in to help you plan your custom mosaic design. To make a plan digitally instead, go to kraftile.com/pages/free-downloadable-planning-templates to download a template suitable for use in Adobe Illustrator, CorelDRAW or Procreate.

The actual size of each hexagon tile is 30mm x 26mm, excluding the grout surrounding each tile. The design on this page, including grout lines, would cover approximately 1m². Multiple sheets of this template can also be printed out and taped together to help plan a border for irregularly shaped rooms.

Instructions specific to hexagon tiles: The designs and words/numbers that can be created with hexagon tiles will differ depending on their orientation - i.e. whether the tiles are laid with a flat top , or with a pointed top .
