

## Sumptuous Sanitiser; Pimp your products for Covid hygiene

Wednesday 09th Dec 2020 | Health & Beauty

**We've all had a tough year with the global pandemic affecting every part of our lives including our health – especially our skin.**

**Constant hand washing and mask wearing can dry out and irritate skin.**

Check out these pimped up products to add a touch of luxury to your covid hygiene regime

### [Babington Soap Co.](#)

Bridging the gap between clean and hydrated hands, the Babington Soap Co. have created a hand sanitiser with a difference. Armed with the unique ingredient [Chitosan](#) – a wholly plant-based and in this case [pharmaceutical grade moisturiser](#) – it sidesteps the dryness and irritation provoked by standard sanitisers to leave hands feeling soft and smooth.

*In pre-launch testing, **100%** of testers said the product left their hands feeling **tender and soft**, over **96%** reported that using the product left their hands feeling **fantastic and silky** and over **92%** confirmed it felt like their hands had been hydrated and moisturised. **AMAZINGLY**, **66%** also said that they would not even have guessed they were using a hand sanitiser.*
