

JACOB JENSEN 614

1. Use of the chronograph:

Press button "A" to start the chronograph.

To stop, press button "A" again.

By pressing button "B" the chronograph will reset.

Split time can be measured by pressing button "B" while the chronograph is running. The split time can then be read, when button "B" is pressed again the chronograph will return to the total lapsed time.

2. Setting the timers to zero:

By pulling out the crown completely, button "A" can be used to correct the seconds counter.

Button "B" will correct the 1/10th seconds counter.

By pulling out the crown one step, button "B" can be used to correct the minutes counter. Turning the crown will change the date.

3. Hands and counters:

| | |
|-------------|------------------------------|
| Upper left | : the minutes counter |
| Upper right | : the 1/10th seconds counter |
| Bottom | : the seconds hand |
| Centre | : the seconds counter |
