SOLUTION NOT POLLUTION

Square Glass **COLORS BOTTLES** by WoodWay

We believe in change, we believe in sustainability, we believe in making the world a better place.

And we want to do it with style and simplicity, while offering you practical, sustainable and unique products...

SOLUTION NOT POLLUTION

ABOUT COLOR BOTTLES

MADE OF GLASS

We worked hard to find a product that will not only be functional, but also elegant. The bottles come with a silicone sleeve, which protects them and makes them unique. The sleeves safely cover the bottom and the sides of the bottles to avoid slippery grips and ensure their practicality.

DESIGN

The square shape makes sure that the bottle will catch the eye of everyone that sees it.

SIZE: 500 ML

PRACTICALITY

The silicone sleeve covers the whole bottle, ensuring safe grips.

SAFETY

No need to worry about your health, because the glass does not transfer any chemicals.

12 COLORS

The silicone sleeves that protect the bottles are in 12 different colours. To make it yours, to make it personal.

WHY ARE THE BOTTLES COVERED WITH SILICONE?

We know that glass can be more fragile and easier to break. This is why the bottles come with a protective silicone sleeve. The sleeves safely cover the bottom and the sides to avoid slippery grips and ensure their practicality.

We are aware that the perception of style is very personal. Therefore we want you to have the bottle that best represents you and your passions... Our collection offers 12 well-selected colours for the silicone sleeves and we are sure that you will find the colour that express your personality the most!

WHY WE CHOSE GLASS AS THE MATERIAL?

Glass is endlessly recyclable. Glass does not leach chemicals. Glass is easy to clean. Glass keeps the taste.

It's the material that always guarantee you a eco-friendly and healthy lifestyle. There is no reason to worry about the taste of the beverage, or the chemicals that could be absorbed in it.
