Best-in-class product engineering

100% NATURAL WAX proprietary blend

Decades of refinement to achieve a natural wax blend that outperforms paraffin without using fragrance-free cores.

CORELESS CLEAN BURN technology

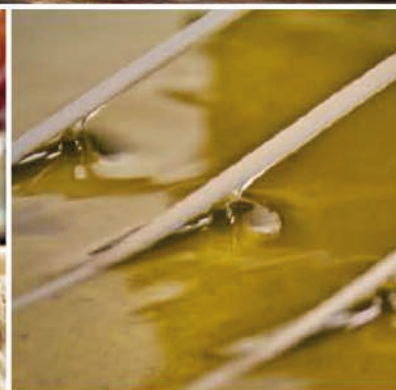

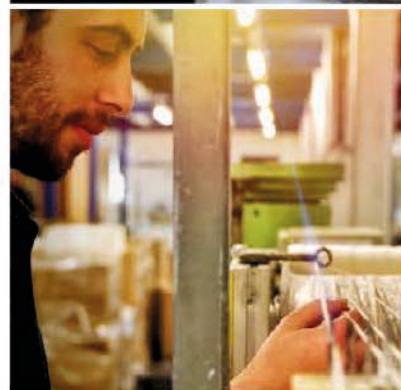

Ultimately, it's all about the fragrance and how to get a clean, even burn with a consistent, pure fragrance dispersion your customers will love (and keep coming back for). All our candles use Coreless Cleanburn technology.

100% ALCOHOL FREE diffusers and room sprays

Longer lasting than their alcohol-based equivalents and no export restrictions.

MADE IN ENGLAND quality control// ISO9001-2015

With components and ingredients from all over the world, manufacturing in the heart of England guarantees tightly controlled local QC throughout, from sourcing components to dedicated clean-room production. If you'd like to visit, our factory door is always open.

From 12 candles a week to 32,500 in 8hrs

HAND POURED In 1987 Carol Symons opened a side-street boutique with a collection of gifts and three scented candles. Hand-poured, with 100% natural wax and her favourite scent (Parks Original), it wasn't long before brands like Harrods recognised the unique attention to detail as well as fine fragrance and began placing orders. Unfortunately, it quickly became obvious the demand was impossible to meet.

NATURAL NOT EASY Manufacturers of fine-fragranced candles hadn't yet come to terms with eco-friendly products. Carol's commitment to 100% natural wax and a super-clean burn was beyond the capabilities of volume producers, all of whom were committed to paraffin in the 80's.

CUTTING EDGE Without tried and tested processes for volume production to Carol's specifications, her husband, Sidney, began developing the manufacturing facilities and expertise needed. With no choice but to learn the hard way - trial and error - he found himself at the cutting edge. Diffusers, room sprays and other fragranced products were a natural progression to grow the range of production capabilities. By the 21st century, Sidney was producing significant volume of 100% natural wax candles to the most demanding values - his wife's.

VALUES Those values have driven continual investment in R&D, the production team and infrastructure. Our laboratories thrive on developing processes such as Coreless CleanBurn Technology and proprietary formulas for wax. Our Head of Engineering is ex-British military and either commissions the finest machinery from around the world or builds it himself. Everything is geared to obsessively making England's finest candles.

Today, Parks is still a family run business, making it's range of candles, diffusers and fragranced products for the home from a 33,000sqft facility in the heart of England, with its showroom in London's West End and has customers on all five continents - but we've never forgotten the values which brought us here.

Aromatherapy

Originally created to help our customers find the same high-quality, all-natural scents their aromatherapy professionals prescribed, advised or used themselves. This latest evolution combines 12 new fragrances with all we've learned over the last 30 years as well as the latest developments in home-fragrance engineering - from self-extinguishing wicks to Coreless Clean Burn technology (consistent fragrance throw and superior burn without tunnelling). Each and every fragrance has been optimised for our proprietary blend of 100% natural wax candles and alcohol-free diffusers.

Tobacco & Leather

An intensely warm and comforting fragrance. The balmy combination of supple leather and honeyed tobacco, rounded with amber and bergamot for a tranquil, homely ambiance.

Feu de Bois

Our warm and smoky blend of cedar, birch and oakmoss, intensified through the earthy, woody scents of gaiac and patchouli. Open fireplace, hearthside haven, crackling embers.

Prosecco

Crisp Veneto prosecco, with a dash of sweet peach - the irresistible fragrance of a sparkling Bellini with an ultra-crisp twist of carnation and violet.

Linen Fresh

Bright white freshness in a blend which beautifully captures crisp white linens drying in the sun with a hint of jasmine in the breeze.

Oud

Sweet, resinous woods - smouldering with a heady trail of smoke from the cinders. This evocative and incomparable scent has been loved throughout the Orient and India for millennia.

Tuberose Ylang Ylang

Sophisticated and seductive. Combines the rich sensual velvet of Navsari's finest tuberose with the gentle spicy warmth of nutmeg to create an evocative and sensual blend.

Grapefruit Jasmine

A lively breakfast-fresh grapefruit zest - enhanced with a light, fragrant bouquet of jasmine, lily and rose. A feel-good fragrance that never fails to raise a smile - bright, uplifting, and reviving.

Lime Basil Mandarin

A timeless best-selling classic. Uplifting and refreshing, the vibrant citrus of Bahia's finest lime and Osceola mandarins infused with sweet, peppery basil and a hint of white woods to create what's fast-becoming England's most popular fragrance.

Orange Cedarwood and Clove

Our unique combination of sweet and zesty oranges - smoothed by a full-bodied blend of warm spicy cloves and rich cedarwood. A fragrance balancing luscious, fresh and soothing in perfect harmony.

Sandalwood Ylang Ylang

Smooth and sensual, this creamy blend of warm and comforting sandalwood gets its extra-velvety depth from exotic ylang ylang.

Parks Original

The scent that started it all - and still our most popular fragrance in Europe. A fusion of sparkling citrus and restorative lavender, with a backdrop of earthy patchouli and warm vanilla.

Cassis

The intoxicating sweetness of an early summer garden, lush with blackcurrants and figs. The fruitiness is subtly enhanced with a bright burst of lemon zest - rounded with a touch of orange blossom.

Fresh Orange Blossom

Under the luminous cool freshness of Valencia's blue skies, orange trees in full bloom, their zesty scent of the sweet citrus fruit, flowers, and green leaves of petitgrain. A picture-perfect fragrance.

Rose

English rose at rich full bloom, balanced with raspberry's tart sweetness, the cool greens of geranium and sensual warmth of ambergris. Lush and intoxicating, with all our favourite elements of the rose, played to perfection.

Spa

Enjoy these therapeutic fragrances found in world-class spas around the globe to soothe, de-stress, restore and revive. For professional Spa therapists or the simple pleasure of treating yourself at home - every fragrance, from Alpine to Rosarium, delivers weeks of luxury spa bliss.

Alpine

Mountain fresh, snow-white pure with a hint of pine for that clear-head cleansed and wide-awake feeling.

Breathe

Escape to a soft island, ocean breeze, coral-fresh, cleansing, pure ... with a hint of creamy white jasmine amongst the sun-bleached driftwood. Breathe deep. Focussed, calm, clear.

Onsen

Yuzu fruits - citrus and fresh - sliced beneath running water in an ancient Onsen ritual to fragrance the air with a light, uplifting scent. The perfect fragrance for a hot-springs' heat.

Plumeria

From Thai spa rituals to Polynesian flower garlands ... Plumeria's honey-warm scent has blissed-out the world since Charles Plumier (Louis XIV's botanist) encountered it. Enhanced with a touch of peach and golden amber, this fragrance sweetly soothes.

Rosarium

The warm, subtly-fragranced breeze of an early summer English rose garden. The hint of soothing, gentle musk and a bright twist of geranium leaves helps you float among the pink petals and their delicate scent.

Platinum

For Parks Platinum, our founders (Carol & Sidney) travelled the globe for exquisite scents to combine with classic British design. Selecting only the finest ingredients, the result embodies decades of candle and diffuser making experience alongside our love of fragrances to deliver the luxury of an exquisitely scented space into your home.

Sandalwood Ambergris

Sandalwood; exquisitely warm, with facets of dry heat and creamy richness, set against the refined sensuality of ambergris, emboldened with golden tobacco and cherry-like tonka.

Maple & Bourbon

Creamy caramel and rich coffee combine with a delicious blend of maple woods, all set in a rich tapestry of amber and orange blossom. Gourmand and epicurean, the roasted notes of coffee are perfectly enveloped in golden glow. Sit back and enjoy with a measure of fine cognac.

Baies Exquis

The tantalising richness of purple fruits, sweet yet tart, transport you to the depths of an English garden. Blackcurrant in bud, growing near soft pink roses with luscious dark green leaves. Wild blackberries woven through unruly hedgerows and hints of summer pudding.

Dark Rose

Velvety and voluptuously rich red petals so dark they look almost black are inspired by the visual feast of the baccara rose. The deep rose aroma is given sparkle and an impression of nectar droplets by the inclusion of red berries. The seductive bloom is enhanced by animalic ambergris and musk.

Oudh Noir

Oudh bakhoor on a golden burner, with traces of smoke and animal leather. Exotic and prized oudh blended with labdanum and dark patchouli.

Grand Cru

A toast of champagne, bubbly and bright. Hints of peach skin and cassis provide sparkle, whilst oakmoss creates depth and intensity.

Feu De Bois

Welcome the autumn forest into your home with the ultimate pairing of woods and smoke. Eccentric, yet curiously comforting smoky birch and dark gaïac are softened by cedarwood and the woodland scents of patchouli and moss.

Parks Original

A fusion of sparkling citrus and restorative lavender, supported by a comforting backdrop of earthy patchouli and warming vanilla - creating a memorable and unmistakable impression. This is the fragrance that started it all.

Ceramics

Tactile ceramic vessels with the classic functionality of Nordic design.

Fragrances capture those fleeting yet unforgettable moments when nature reveals its most stunning scents; Cherry Blossom's all-too-short spring bloom, the first time a Blue Hyacinth, bold and heady, opens its petals to a sun-kissed garden, the first dawn White Jasmin comes alive - infusing summer nights with seduction.

Cherry Blossom

Japan, surrounded by Cherry trees in bloom, their fragile pink petals floating on the breeze. A delicately scented cherry blossom accord with creamy almond, violets, soft rose and sweet cherry - dusted with a veil of elegant powdered iris.

Magnolia Blush

Pure summer freshness. Huge white and pink flowers of the magnolia tree exude a beautifully fresh yet warm and balmy citrus-like fragrance. Captured with hints of linden blossom, lemon and woods.

Royal Neroli

Only the early morning, hand-harvested Neroli is selected for royal use, as per the Princess of Naxos's demands. The ultra-crisp freshness of our Royal Neroli, like the legend, comes when the zingy flowers are brought alive by hints of lemon and orange.

Blue Hyacinth

Hyacinths come in many colours, each with its own distinctive fragrance. Fill your home with the unmistakably-scented blue. We've blended these intensely fragrant blooms with the earthy greenness of galbanum, golden honey, dew-covered grass and heady scent of stock to create an unforgettable bouquet.

White Jasmine

This pure and delicate rendering of jasmine with its seductive aroma bathes you in summers' lazy afternoon and warm, hacienda night. Soft creamy white peals of jasmine, decorated with light touches of magnolia and orange blossom.

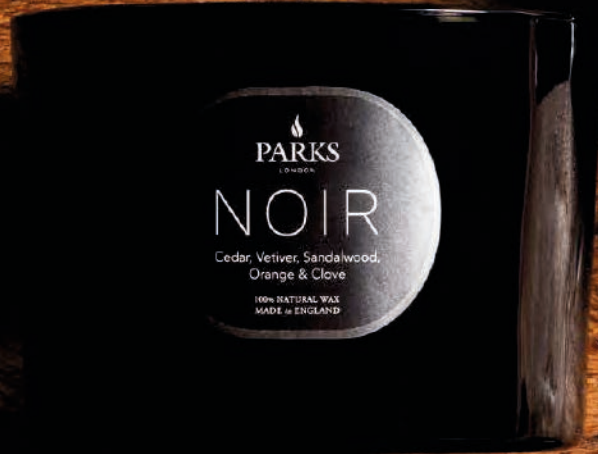

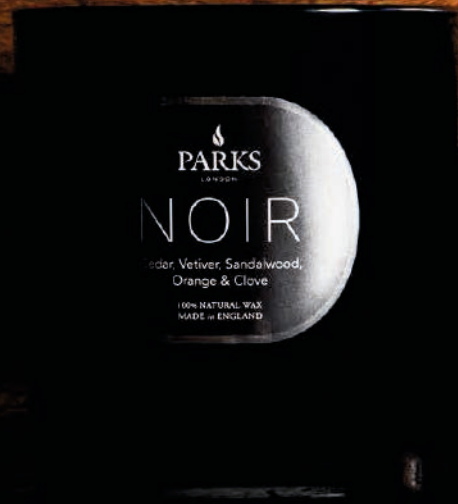

Velvet Jasmine

The night blooming tuberose, a seductive and fruity flower with a green and velvet softness. Blended with ylang ylang and rosy geranium to add texture and heat.

Honeysuckle Bloom

Nectar and honeysuckle blooms fill the evening air. Irresistibly fresh and floral, yellow and white honeysuckle is lifted with fresh green leaves and the luminous scent of citronella.

Noir

Timeless and chic fragrances presented in a classic black minimalist vessel for simple, understated luxury.
From Sandalwood & Ylang Ylang to Pomegranate & Pink Pepper, these balmy scents create the perfect evening ambiance.

Oud

For the distinctly exotic ... Oudh resin - heady with eastern oriental promise, blended with spice, cypril and earthy patchouli to create a scent of mystery and seduction.

Feu de Bois

A roaring log fire of birch and cashmere woods, billowing with warmth. Spice and smoke add a sophisticated edge to this classic blend.

Pomegranate & Pink Pepper

A unique blend, where pink pepper creates a fresh, sparkling warmth, balanced by tart pomegranate and the sweetness of plum. A background of gently spiced woods makes for an epicurean treat.

Cedar & Vetiver

Orange and clove combined with a dry, seductive backdrop of earthy vetiver, crisp cedar and warming sandalwood.

Vetiver, Basil & Mint

Lively and fresh - invigorating peppermint and bergamot blended with crisp basil and herbs. Vetiver and woods bring depth to the freshness.

Sandalwood & Ylang Ylang

Sensual ylang ylang and jasmine combined with the creamy heat of sandalwood. Nutmeg provides an inviting and intriguing warmth beneath.

Massage

Designed to melt into a pampering oil at body temperature, then slowly poured and massaged into skin.

This specially formulated blend of therapeutic fragrance with rich cocoa butter, almond and soy oils, alongside vitamins A&E also nourishes, softens and moisturises for approximately 5 full-body massages. Presented in tactile, soft-touch, easy-pour ceramic vessels.

Stimulating

Lavender oils and sandalwood - soothing, relaxing and calm, but when blended with peppermint for an all-over tingling sensation - you've never felt so alive in the moment.

Serenity

De-stress with this unique combination of calming lavender and amyris oils - a dreamy, balanced blend, mixed with ylang ylang and orange for that tranquil, serenely relaxed feeling.

Palmarosa Touch

A unique blend of bergamot and palmarosa combine to nourish the skin with a soft, cashmere touch, whilst the warm woodiness of patchouli rounds out the scent.

Afterglow

Sweet oranges and mandarins for sunset-warm skin with a deep after-glow, blended with herbal tones of rosemary and mint for a mild but mellow lift.

Deep Heat

Clove and cinnamon's warming spice combined with the perfect healing salve of cooling eucalyptus to help restore and relieve muscular tension.

Compact Candles

For travel, home or garden, these are not only beautiful scents, but also incredibly useful, from anti-mosquito to anti-tobacco. Whether trying a new fragrance for summer or using one of our problem-solving candles designed to help keep mosquitoes at bay or neutralise pet, tobacco and cooking odours, our Compact Candles make perfect gifts.

Anti Tobacco	Combat the stifling smell of lingering tobacco and cigar odours with its perfect antidote - a fresh burst of orange, cedarwood and fizzy fruit the sparkling brightness deodorises your surroundings.				●	●
Pet Lovers	You love your pets, but maybe not always the smells they create. Eliminate unwelcome pet odours with the scent of a delicate flower garden with night-blooming jasmine, accented by zesty grapefruit, orange, lemon and earthy notes.				●	
Citronella	Looking for the classic, zingy blend of citronella and lemongrass? This summery candle complements long sunny evenings wherever you find yourself, be that relaxing on a hotel balcony or unwinding in the garden. And as an added bonus, it helps keep those irritating bugs and mosquitoes away.	●	●			
Lemon Basil Twist	A happy memory of sunshine on the Mediterranean captured in a zesty Sicilian lemonade. A refreshing twist of basil and freshly sliced citrus fruits mingle over crisp white woods. Now you can take the feeling of an Italian summer with you, wherever you need it.	●	●			

Fragrance Pyramid Notes

The way a fragrance is perceived can be visualised as a pyramid. Top, middle and base "notes" reflecting the typical stages at which each "note" becomes apparent or dominant.

Whereas in an Eau de Toilette, the pyramid structure mirrors the evaporation of scent from the skin, for home fragrances (and in particular candles) the pyramid reflects the impressions in cold wax, in burn and when the burnt candle is left in the room after use. In diffusers, the top notes create lift and base notes provide depth, in effect keeping the fragrance smelling the same throughout the duration of diffusion.
