Our Story

In 1987 Carol Symons opened a small London boutique with a collection of gifts and three scented candles.

“I remember being nervous watching a customer's first reaction whenever they'd lean in to smell the candles. I probably spent way too much time thinking about what their smiles meant”

HAND POURED, with 100% natural wax and her favourite scent (Parks Original), it wasn't long before brands like Harrods recognised the quality, fine fragrance and unique attention to detail. They began placing orders and it quickly became obvious the demand would be impossible to meet.

NATURAL NOT EASY Unfortunately, in those days, established candle manufacturers who could help meet the demand hadn't yet come around to the benefits of eco-friendly products. Carol's commitment to 100% natural wax, a super-clean burn and sustainable sourcing went beyond the capabilities of larger volume manufacturers who were committed to paraffin in the 80's.

CUTTING EDGE Without tried and tested processes for serious production quantities to Carol's specifications, her husband, Sidney, was recruited to the cause. With no choice but to learn through trial and error, he found himself at the cutting edge, developing the techniques, expertise and equipment needed. Other fragranced products for the home and giving were a natural progression. By the 21st century, Sidney was producing significant quantities of diffusers, room sprays (alcohol-free) and 100% natural wax candles to the most demanding values - his wife's.

VALUES Those values have driven continual investment in R&D, the production team, infrastructure, and reducing the carbon footprint for each and every product. Our laboratories love developing processes such as Coreless CleanBurn Technology and proprietary wax formulas. From commissioning the finest machinery around the world to building it ourselves - everything is obsessively geared towards making the world's finest fragranced products for the home and gifting.

Today Parks is still a family run business, with a 33,000sqft production facility in the heart of England, showroom in London's West End and customers on all five continents - but we've never forgotten the values which brought us here. Every hour of every day, someone, somewhere on the planet is smiling because they've just lit or been given one of our candles. That's why we love what we do.

Best-in-class product engineering

100% NATURAL WAX proprietary blend

Decades of refinement to achieve a natural wax blend that outperforms paraffin without using fragrance - free cores.

CORELESS CLEAN BURN technology

Ultimately, it's all about the fragrance and how to get a clean, even burn with a consistent, pure fragrance dispersion your customers will love (and keep coming back for).

All our candles use Coreless Cleanburn technology.

ALCOHOL FREE diffusers and room sprays

Longer lasting than their alcohol-based equivalents and no export restrictions.

MADE IN ENGLAND

quality control// ISO9001-2015 With ingredients from all over the world, manufacturing in the heart of England guarantees tightly controlled local QC throughout, from components to dedicated clean-room production. If you'd like to visit, our factory door is always open.

Notre histoire

En 1987, Carol Symons ouvre une petite boutique à Londres où elle propose des cadeaux et 3 bougies parfumées.

« Je me souviens de ma nervosité à l'approche des clients, les voir se pencher sur la bougie, la sentir, des sourires. Mais que voulait dire ces sourires »

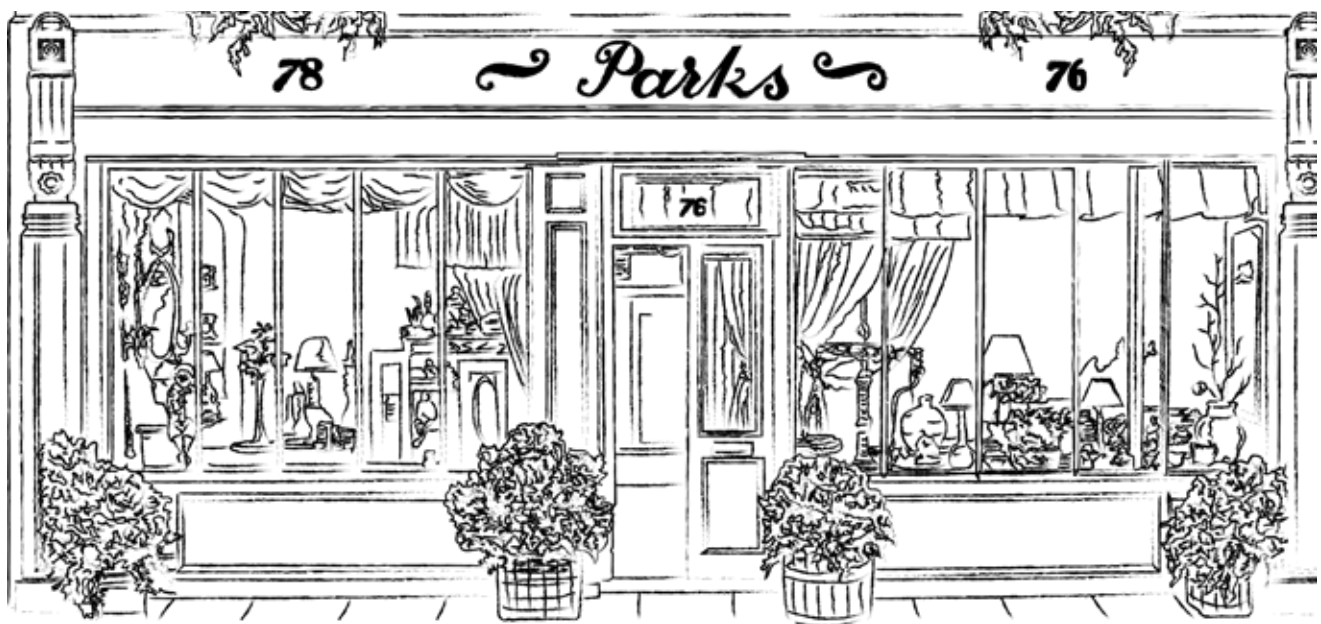

VERSEES A LA MAIN *En 1987, Carol Symons ouvre une boutique dans une petite rue avec une collection de cadeaux et trois bougies parfumées. Versées à la main, avec de la cire 100% naturelle et son parfum préféré {Parks Original}, des marques telles que Harrods ont reconnu l'attention unique portée aux détails ainsi que son parfum raffiné et ont commencé à passer commande. Malheureusement, il est vite devenu évident que la demande était impossible à satisfaire.*

PAS SI SIMPLE LE NATUREL *Les fabricants de bougies aux parfums raffinés n'avaient pas encore intégré les produits écologiques. L'engagement de Carol en faveur d'une cire 100% naturelle et d'une combustion ultra-propre dépassait les capacités des producteurs en série, tous engagés dans la paraffine dans les années 80.*

A LA POINTE *Sans processus éprouvés pour la production en série, Sidney, le mari de Carol, a commencé à développer les installations de fabrication et l'expertise nécessaire selon les spécifications de sa femme. N'ayant d'autre choix que d'apprendre à la dure par essais et erreurs, il se retrouva à la pointe. Les diffuseurs, les pulvérisateurs d'ambiance et autres produits parfumés constituaient une progression naturelle pour élargir l'éventail des capacités de production. Dès le 21ème siècle, Sidney produisait un volume considérable de bougies en cire 100% naturelles répondant aux valeurs les plus exigeantes, celles de sa femme.*

VALEURS *Ces valeurs ont motivé des investissements continus dans la R & D, l'équipe de production et l'infrastructure. Nos laboratoires prospèrent grâce aux processus de développement tels que la technologie Coreless CleanBurn (combustion propre) et les formules exclusives pour la cire. Nous travaillons méticuleusement à la fabrication des bougies les plus qualitatives d'Angleterre.*

Aujourd'hui, Parks est encore une entreprise familiale, proposant une gamme de bougies, de diffuseurs et de produits parfumés pour la maison dans une installation de 3065 mètres carrés, située au cœur de l'Angleterre, avec son showroom dans le West End de Londres et des clients répartis sur les cinq continents mais nous n'avons jamais oublié les valeurs qui nous ont portés jusqu'ici.

Ingénierie-produit de première qualité

100% CIRE NATURELLE *Marque déposée*

Des décennies de raffinement pour réaliser un mélange de cire naturel qui surpasse la paraffine sans utiliser de parfum

CORELESS CLEAN BURN *Technologie (combustion propre)*

Le plus important c'est le parfum et comment obtenir une combustion ultra-propre, équilibrée avec une diffusion du parfum que nos clients aimeront (et continueront à vouloir). Toutes nos bougies utilisent la technologie Coreless Clean Burn.

Diffuseurs et pulvérisateurs d'ambiance SANS ALCOOL

Plus durables que leurs équivalents à base d'alcool et sans restriction à l'exportation.

FAITS EN ANGLETERRE *Contrôle qualité // ISO9001-2015*

Des produits fabriqués au cœur de l'Angleterre, ce qui garantit un contrôle de qualité rigoureux, de l'approvisionnement en composants à la production en salle blanche dédiée.

Si vous souhaitez nous rendre visite, notre porte est toujours ouverte.

La Nostra Storia

Nel 1987 Carol Symons inauguró la sua piccola ed elegante boutique a Londra, con un'esclusiva collezione di articoli regalo e tre candele profumate.

"Ricordo di essere nervosa mentre guardavo la reazione dei clienti quando annusavano le candele per la prima volta. Probabilmente ho passato troppo tempo a pensare cosa significassero i loro sorrisi"

A MANO, con il 100% di cera naturale e la sua fragranza preferita Parks Original, in poco tempo, brands come Harrods, riconobbero la particolare attenzione per i dettagli e le meravigliose fragranze che caratterizzavano le candele Parks ed iniziarono ad ordinarle. Gli ordini aumentarono significativamente, ed una produzione artigianale non era piú sostenibile.

NATURALE - NON FACILE Sfortunatamente, a quei tempi, i produttori di candele affermati che potevano contribuire a soddisfare la domanda, non avevano ancora raggiunto i benefici dei prodotti eco-compatibili. La dedizione di Carol ad utilizzare la cera al 100% naturale per ottenere una fiamma pulita - senza tracce scure antiestetiche di combustione - ed un approvvigionamento sostenibile, è andato oltre le capacità dei produttori di grandi volumi che si sono impegnati a paraffinare negli anni '80.

ALL'AVANGUARDIA Senza processi produttivi disponibili che seguissero le esigenti richieste di quantità di Carol, il marito Sydney fu reclutato per la causa. Senza averlo scelto, provando e sbagliando, si trovó a creare qualcosa di assolutamente inedito. Non avendo altra scelta che imparare attraverso prove ed errori, si è trovato all'avanguardia, sviluppando le tecniche, le competenze e le attrezzature necessarie. I seguenti prodotti profumati per la casa sono stati una progressione naturale. Nel XXI secolo, Sidney produceva notevoli quantità di diffusori, spray per ambienti (senza alcool) e candele con cera 100% naturale per il piú esigente dei suoi clienti - sua moglie.

VALORI Negli anni, questi valori hanno guidato i successivi investimenti nello sviluppo, nel gruppo di esperti e nelle strutture. I nostri laboratori hanno sviluppato processi produttivi brevettati come la "Coreless CleanBurn Technology" e la formula chimico fisica della base cerosa. Dalla messa in servizio dei migliori macchinari da tutto il mondo alla costruzione degli stessi. Il tutto equipaggiato per produrre le migliori candele Inglesi.

Oggi Parks è ancora oggi un'azienda a conduzione familiare, con un impianto di produzione di 33.000 metri quadrati nel cuore dell'Inghilterra, uno showroom nel West End di Londra e clienti in tutti e cinque i continenti, ma non abbiamo mai dimenticato i valori che ci hanno portato qui. Ogni ora di ogni giorno, qualcuno, da qualche parte sul pianeta, sorride perché ha appena acceso o ricevuto una delle nostre candele. Ecco perché amiamo ciò che facciamo.

La migliore tecnologia del prodotto

100% NATURAL WAX miscela esclusiva

Decenni di raffinatezza per ottenere una miscela di cere naturali che superi la paraffina, senza scure tracce antiestetiche di combustione.

CORELESS CLEAN BURN tecnologia

In definitiva, è tutto concentrato sulla fragranza e su come ottenere una bruciatura pulita ed uniforme, con una dispersione della fragranza coerente e pura, che i clienti apprezzeranno (e continueranno a riacquistare). Tutte le nostre candele usano la tecnologia Coreless Cleanburn.

ALCOHOL FREE diffusori e spray per l'ambiente

I diffusori e gli spray durano più a lungo rispetto ai loro equivalenti a base di alcool, e non hanno nessuna restrizione nell'esportazione.

MADE IN ENGLAND controllo qualità// ISO9001-2015

Il sito produttivo, situato nel cuore dell'Inghilterra, garantisce severi e rigorosi controlli lungo tutta la catena produttiva, dalla fonte fino alla produzione in camera Bianca. Se avete piacere a visitarci, la nostra produzione è sempre aperta.

Aromatherapy

Originally created to help our customers find the same high-quality, all-natural scents their aromatherapy professionals prescribed, advised or used themselves. This latest evolution combines 12 new fragrances with all we've learned over the last 30 years as well as the latest developments in home-fragrance engineering - from self-extinguishing wicks to Coreless CleanBurn technology (for a consistent fragrance throw and super-clean burn without tunnelling). Each and every fragrance has been optimised for our proprietary blend of 100% natural wax candles and alcohol-free diffusers.

Créés à l'origine pour aider nos clients à trouver les mêmes parfums naturels de haute qualité que leurs professionnels d'aromathérapie leur avaient prescrits, conseillés ou utilisés eux-mêmes. Cette dernière évolution combine 12 nouveaux parfums avec tout ce que nous avons appris au cours des 30 dernières années, ainsi que les derniers développements en matière d'ingénierie de parfums d'intérieur, des mèches auto-extinguibles à la technologie Coreless Clean Burn (jet de parfum cohérent et combustion supérieure sans effet tunnel). Chaque parfum a été optimisé pour notre mélange exclusif de bougies à la cire 100% naturelles et de diffuseurs sans alcool.

Originariamente creata per aiutare i nostri clienti a trovare le stesse fragranze naturali e di alta qualità che gli Aromaterapisti prescrivono, raccomandano o usano loro stessi. Quest'ultima evoluzione della linea Aromatherapy combina 12 nuove fragranze con tutto ciò che abbiamo imparato negli ultimi 30 anni e con gli ultimi sviluppi nell'ingegneria delle fragranze per la casa - dallo stoppino autoestinguente alla tecnologia Coreless CleanBurn (rilascio continuo della fragranza nell'ambiente e bruciatura pulita senza traforamento della cera). Ciascuna delle fragranze è stata ottimizzata per la nostra miscela composta da cera al 100% naturale e per i nostri diffusori senza alcool.

Ceramics

Tactile ceramic vessels with the classic functionality of Nordic design, matched by fragrances capturing those fleeting yet unforgettable moments when nature reveals its most stunning scents; Cherry Blossom's all-too-short spring bloom, the first time a Blue Hyacinth, bold and heady, opens its petals to a sun-kissed garden, the first dawn White Jasmine comes alive - infusing summer nights with seduction.

Réceptacles en céramique texturées avec la fonctionnalité classique du design nordique, assortis de parfums capturant ces moments fugaces mais inoubliables lorsque la nature révèle ses parfums les plus renversants. La floraison printanière trop courte de Cerisiers en fleur est la première fois qu'une jacinthe bleue audacieuse et capiteuse ouvre ses pétales dans un jardin ensoleillé, la première aube du jasmin blanc s'anime, une nuit d'été infusée de séduction.

Vasi di ceramica tattili con la classica funzionalità del design nordico, abbinati a fragranze che catturano quei momenti fugaci ma indimenticabili in cui la natura rivela i profumi più indimenticabili; la fugace fioritura primaverile del fiore di ciliegio, la prima volta che un giacinto blu, audace e inebriante, apre i suoi petali ad un giardino baciato dal sole, la prima alba del gelsomino bianco prende vita - infondendo notti estive alla seduzione.

Massage Candle

Designed to melt into a pampering oil at body temperature, then slowly poured and massaged into the skin. This specially formulated blend of therapeutic fragrance with rich cocoa butter, almond and soy oils, alongside vitamins A&E also nourishes, softens and moisturises for approximately 5 full-body massages. Presented in tactile, soft-touch, easy-pour ceramic vessels.

Conçu pour fondre dans une huile de soin à la température du corps, puis versé lentement et massé la peau. Ce mélange spécialement formulé de parfum thérapeutique aux huiles riches de beurre de cacao, d'amande et de soja, ainsi que de vitamines A et E, nourrit, adoucit et hydrate pour une utilisation d'environ 5 massages complets du corps. Présenté dans des récipients en céramique tactile, doux au toucher et facile à verser.

Progettate per fondersi in un olio di benessere a temperatura corporea, quindi lentamente versato e massaggiato nella pelle. Questa miscela appositamente formulata di fragranze terapeutiche con ricco burro di cacao, oli di mandorla e di soia, insieme alle vitamine A e d E nutre, ammorbidisce e idrata. Presentato in vasi tattili, morbidi e facili da maneggiare.

Compact Candles

For travel, home or outdoors & garden, these are not only beautiful scents, but also incredibly useful. Whether trying a new fragrance for summer or using one of our problem-solving candles designed to help keep mosquitoes at bay or neutralise pet, tobacco and cooking odours, our Compact Candles make perfect gifts.

Pour les voyages, la maison ou le jardin, ce ne sont pas seulement de beaux parfums, mais aussi une aide précieuse, allant d'anti-moustiques à antitabac. Que vous essayiez un nouveau parfum d'été ou que vous utilisiez l'une de nos bougies pour la résolution de problèmes, conçues pour aider à éloigner les moustiques ou pour neutraliser les odeurs d'animaux de compagnie, de tabac et de cuisine, nos bougies compactes sont un cadeau parfait.

Per viaggiare, per la casa o per il giardino, queste non sono solo delle splendide fragranze, ma anche incredibilmente funzionali, da anti-zanzara a anti-tabacco. Che tu voglia provare un nuovo profumo per l'estate o che voglia utilizzare una delle nostre candele risolti-problemi progettate per tenere lontane le zanzare o neutralizzare l'odore di animali domestici, tabacco e cibo.. le nostre Compact Candles sono il regalo perfetto.

Silver

The candles that started it all and still best-selling classics with their distinctive heavyweight silver plating. Filled with Parks Original fragrance - fresh and uplifting citrus notes blended with lavender and vanilla - delivering a uniquely fresh fragrance with smooth woody undertones.

Tout a commencé avec les bougies Silver et qui sont toujours des classiques à succès avec leur métal argenté distinctif. Imprégnées du parfum original de Parks, des notes d'agrumes fraîches et inspirantes mélangées à de la lavande et de la vanille et- délivrant un parfum unique et frais avec des nuances boisées douces.

Le candele che hanno dato il via a tutto e continuano a battere i classici con la loro caratteristica: la placcatura in argento massiccio. Profumate della fragranza Parks Original - note di agrumi freschi ed esaltanti, miscelate con lavanda e vaniglia, che conferiscono una fragranza unica e fresca con sfumature lisce e legnose.

Moods

Moods

Inspired by the thinking behind colour therapy, our Moods range creates a unique spectrum of ambiance. Matching filtered light with specially selected fragrances, transform any space to suit your mood with a combination of flickering colours and fine fragrance.

Inspirée par la pensée qui sous-tend la chromothérapie, notre gamme Moods crée un spectre d'ambiances unique. En combinant une lumière filtrée avec des parfums spécialement sélectionnés, transformez tout espace en fonction de votre humeur avec une combinaison de couleurs scintillantes et de parfum fin.

Ispirata dal pensiero alla base della cromoterapia, la nostra gamma Moods crea uno spettro unico di atmosfera. Abbinare la luce filtrata con le fragranze appositamente selezionate, trasforma ogni spazio in base al tuo umore, con una combinazione delle migliori fragranze e di colori tremolanti.

Vintage Aromatherapy

Created to help our customers find the same high-quality, all-natural scents their aromatherapy professionals prescribed, advised or used themselves. From Sandalwood and Ylang Ylang to more traditional scents like Lavender or Lime, Basil and Mandarin - there's a massive range of fragrances and sizes to choose from - easily explored in our discovery and gift sets. Whatever your need - a heartfelt gesture, thoughtful gift, unwinding at home or Aromatherapy professional, our most popular range has a candle or diffuser for you.

Créée pour aider nos clients à trouver les mêmes parfums naturels de haute qualité que leurs professionnels de l'aromathérapie leur ont prescrit, conseillé ou utilisé eux-mêmes. Du bois de santal et de l'YlangYlang aux parfums plus traditionnels tels que la lavande ou le citron vert, le basilic et la mandarine, il existe une vaste gamme de parfums et de tailles parmi lesquels choisir ; à explorer dans nos coffrets-découverte et cadeaux. Quel que soit votre besoin, un geste sincère, un cadeau bien pensé, détente à la maison ou pour le professionnel de l'aromathérapie, notre gamme la plus populaire a une bougie ou un diffuseur pour chacun.

Originariamente creata per aiutare i nostri clienti a trovare le stesse fragranze naturali e di alta qualità che gli Aromaterapisti prescrivono, raccomandano o usano loro stessi. Da Sandalwood e Ylang Ylang a profumi più tradizionali come Lavender o Lime, Basil and Mandarin. Questa linea propone una vasta gamma di fragranze e dimensioni tra cui scegliere - facilmente esplorabili nella nostra collezione e nelle nostre confezioni regalo. Qualunque sia la tua esigenza - un gesto premuroso, un regalo grazioso, un evento a casa o un professionista di Aromaterapia - la nostra gamma più popolare ha una candela o un diffusore che fa per te.
