

Keep it Safe!

mimic<sup>GO</sup>

*Product Brochure*

## MAKE IT SAFER FOR YOUR GEAR, YOUR ROOM EVEN YOU!

Use Mimic GO to notify you if anyone tampers with your gear when travelling or at a cafe or a gym. Or hang it on your dorm door or place in home office or in garage to alert you if someone steps in.

## Keep it Safe with Mimic GO

Get security - for your gear and for you!

Where you want it!

When you want it! How you want it!

Secure your backpack, valuables, professional gear or computers when traveling. Or make your room, home office, garage 'safer'... even when at home!

## Use Mimic GO to keep your belongings safe.

Whether in transit, at a cafe, at the gym, at work or when traveling Mimic GO can keep tabs on your valuable gear. Just place Mimic GO inside your bag or on your belongings. Use the free app to turn it on and Mimic GO will send an instant notification to your app if your gear is shifted or moved. So you can respond right away. You can even set it to sound an alarm and deter anyone and alert others.

*Just set the "Belongings Mode" in your app.*

## The Smart Mimic App works with Mimic GO to help makes it safer, anytime, anywhere!

Use the included Mimic App to easily configure your Mimic GO for most common scenarios. With just three taps of the app Mimic GO communicates with your phone or smartwatch via the Mimic app. Customize your experience by adjusting the alarm, light, and skill selections. Decide how you want to get notified by choosing your notification settings.

With Mimic GO you can secure more than just a backpack or laptop! Secure Golf Bags, Bikes, Camping Gear, DSLR Cameras, Video Gear and Musical instruments too! Even secure your Garage from unauthorized entry. Mimic GO is for you even if you need to keep the teenagers away from the wine cabinet.

*Download the Smart Mimic app here.*

## Mimic GO can make your space safer!

Use Mimic GO to make any space safer - whether it is shared living space like an Airbnb, your dorm room or a shared work space. Even use it to secure spaces your home security just doesn't cover adequately - like the tool shed or garage. Just place Mimic GO facing the area you want to monitor. Once armed, Mimic GO will send a notification to your app if any unexpected or unwanted person intrudes in your space. You can even set it to sound an alarm to alert others and warn the intruders off.

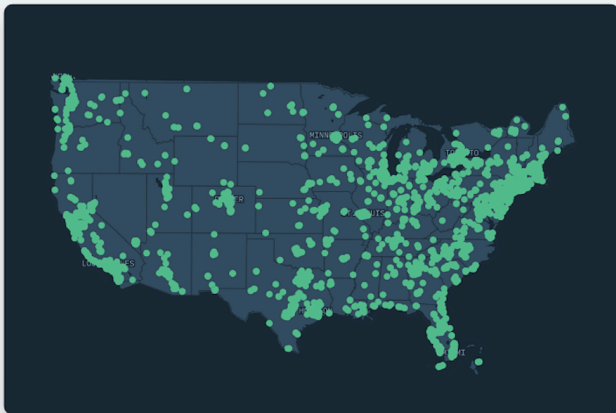

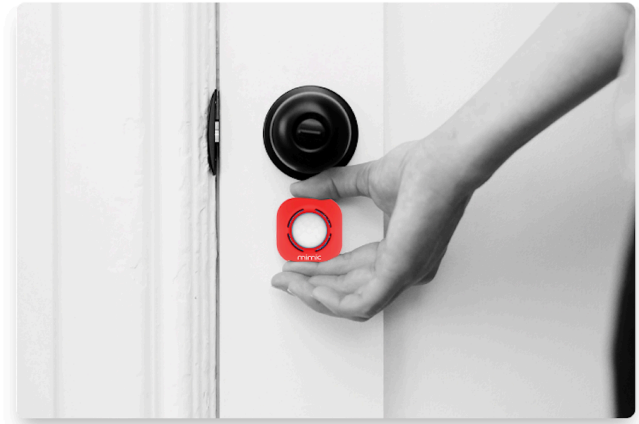

*Just set the "Presence Mode" in your app.*

Mimic GO can even make it safer for you even when traveling.

Use Mimic GO as your own personal, traveling watch dog! Mimic GO can be put on alert while you sleep - whether at home or on the road. Using the included reusable sticky pad, you can place Mimic GO on any movable smooth surface -like a hotel room door. Arm it as you wish, and rest peacefully while mimic GO stays on guard all night long.

*Just set the "Door Mode" in your app.*

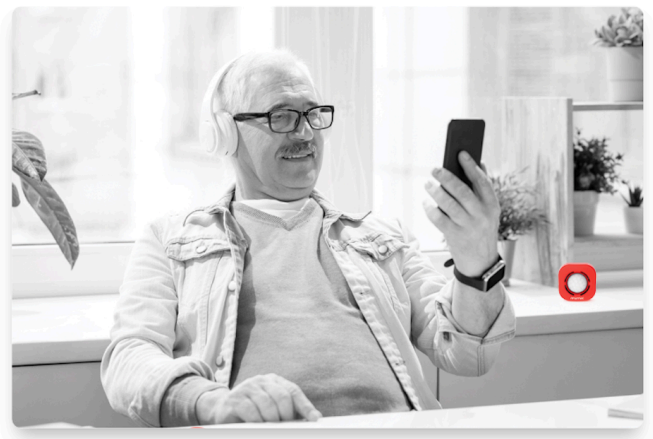

Mimic GO stays connected to your phone even when other Bluetooth devices give up! In fact Mimic GO stays connected to you even when Bluetooth doesn't!

Using the advanced Mimic Fi technology Mimic GO can stay in touch with your phone whether you are in Bluetooth range or not. Mimic GO will automatically seek other networks to stay in touch with you even if your phone loses Bluetooth contact with your Mimic GO. We do this without the need for any SIM cards or cell phone fees.

*Check for coverage in the US and worldwide here.*

Use Mimic GO to give peace of mind to yourself and people you care about!

Worried about the safety of your kids in a dorm? Or about seniors you care for? Mimic GO helps you keep tabs on them without invading their privacy. At Smart Mimic we are constantly working on new ways to make it safer for you, people you care about and the things you care about - safer.

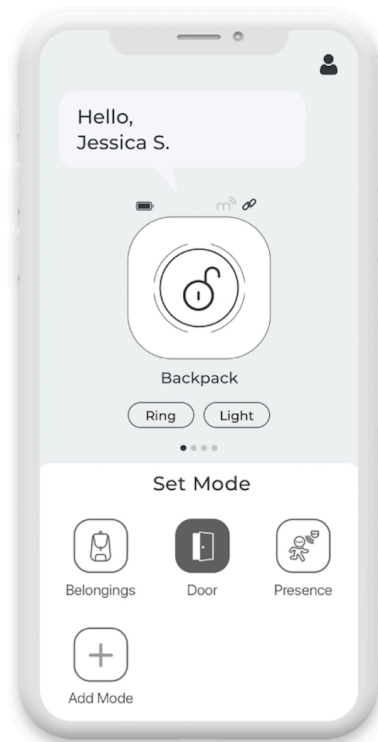

## WITH MIMIC GO YOU HAVE YOUR SAFETY AND PRIVACY TOO!

Mimic GO does not use cameras, microphones or GPS to keep things safe. Mimic GO uses advanced technology to makes sense of the real world and keep you safe without needing to know what you are saying, doing or writing.

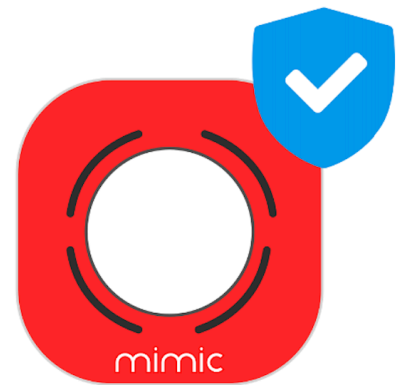

### Get Set up in 3 Easy Steps!

1. Unbox Mimic GO. Place where you need security.
