

OTS1™ INSTANT 2 ↔ 4 CABLE METHOD SWITCHING (TRS FOOTSWITCH)

**** Instantly re-route the FX LOOP pedals into the front of the amplifier, when substituting an amp with an effects loop (4CM) for one without (2CM), by pressing the 4CM/2CM button and selecting the 2CM position. All of the pedals and all of the pedalboard connections remain unchanged! All of the necessary signal path changes are taken care of by/within the OTS1™ Patch-Box, automatically.**

PEDALS IN FRONT

**** 2CM: AFTER THE OVERDRIVE
4CM: IN THE AMP'S FX LOOP**
