

OTS1™ PRE-BUFFER FUZZ AND PEDALS IN FRONT (TRS FOOTSWITCH)

The (not shown) **AXSGTR® UNZ1™ Un-Buffer** allows [Ge] germanium fuzz pedals and other impedance sensitive effects to play and sound right when placed in a signal path or used after, a buffer, wireless, another pedal, or even a guitar with active pickups.

Visit our [website](#) for more information about the **UNZ1™ Un-Buffer** and see Diag. OTS1-UNZ1.
