

OTS1™ PRE-BUFFER FUZZ / PEDALS / MIDI CONTROLLED WET/DRY/WET RIG

The (not shown) **AXSGTR® UNZ1™ Un-Buffer** allows [Ge] germanium fuzz pedals and other impedance sensitive effects to play and sound right when placed in a signal path or used after, a buffer, wireless, another pedal, or even a guitar with active pickups.

Visit our [website](#) for more information about the **UNZ1™ Un-Buffer** and see *Diag. OTS1-UNZ1*.
