

# FUZZ PEDAL 'FIX' FOR ACTIVE PICKUPS OR WIRELESS + OTS1 PATCH-BOX WITH INSTANT 2 → 4 CABLE METHOD SWITCHING AND POST FUZZ BUFFER

The **AXSGTR® UNZ1™ Un-Buffer** allows [Ge] germanium fuzz pedals and other impedance sensitive effects to play and sound *right* when placed in a signal path or used after a buffer, wireless, another pedal, or even a guitar with active pickups.

**ALL PEDALS IN FRONT + DELAY: FX LOOP (4CM) / AFTER OD (2CM)**
