Unfolding the wagon

1. Standing on either side of the wagon, push smoothly outward on the upper front and rear frame tubes to unfold the wagon.
2. Ensure the upper lock on the right side of the wagon snaps into place.
3. Flip over the side pocket flaps to the outside on both sides of the wagon to cover the frame joints.

Assembly & removal of front wheels

1. Insert front wheels into the front wheel housings until you hear a click.
2. After attaching the front wheels, pull down on each wheel to confirm that they are securely locked in place.
3. To unlock and release the wheel, use a tool with a narrow point to press the metal buttons at the base of the wagon frame, then pull off the wheel.

Assembly of rear wheels

1. The C-shaped clamp comes pre-installed on the brake assembly. Release the C-shaped clamp by pushing it out from the brake unit.
2. Insert the wheel axle in the brake assembly.
3. Insert the C-shaped clamp back into the rear wheel housing.
4. Pull the rear wheel axle to ensure that the rear wheel assembly is secure.

Assembly of rear wheels

1. Line up and connect the rear wheel assembly to the rear tube joint.
2. Check that the c-clips are in place on both sides of the wheel housing.

Assembly of basemat

1. Place the basemat into the base of the wagon fabric nestled against the frame.
2. Press the basemat with your hands to level and secure it in place.

Seat assembly (Seat is not suitable for children under 6 months)

1. Place the seat into one end of the wagon.
2. Secure the hooks on both sides of the seat onto the wagon frame hand rail. Then secure the hooks and buckle on the back of the seat onto the upper tube of the wagon frame.
3. Completed seat assembly shown in diagram 3.
4. For reclining mode, remove the seat and reposition the side hooks further forward.

2. Gently wiggle the basket to level it. Completed assembly shown in diagram 2.

Canopy assembly

1. Take out the canopy fabric from the package. Insert the canopy tubes through the piping of the fabric.
2. Before assembling the canopy, make sure all four plastic clamps at the corners are open.
3. Insert the canopy poles into the frame slots on all four corners at the desired height.
4. Clasp to close all four plastic clamps. Canopy assembly complete.

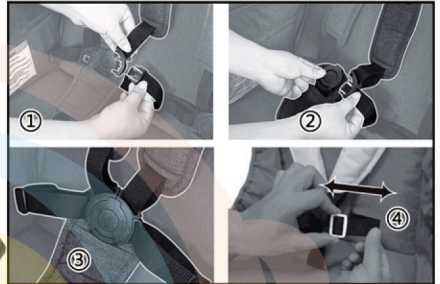

OPERATION

Securing the harness

1. With harness unbuckled, place child in seat.
2. Secure child with harness by placing shoulder and waist belts over shoulders and over thighs.
3. Snap buckle tongues into centre strap buckle.
4. Adjust each strap by pulling on the free end of the strap and move the slide adjuster along strap.

Two Seat Layout

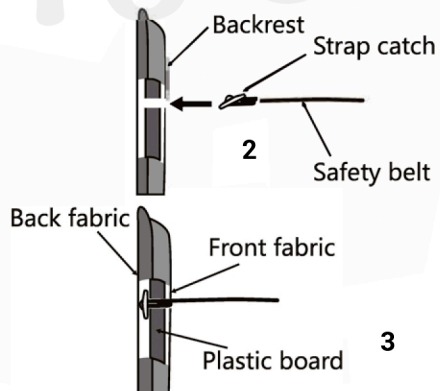

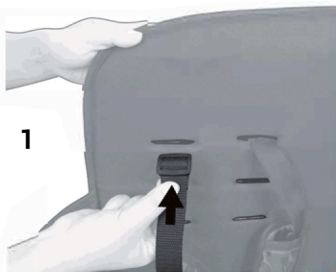

One Seat Layout

Assembly & removal of the harness

1. Open the velcro strips on the backside / bottom of the seat to access the belt catches.
2. Insert the belt catch perpendicular through the front fabric and internal plastic boards as shown in diagram 2.
3. Rotate the belt catch parallel to the backrest and pull the belt to secure in place as shown in diagram 3.
4. To remove the safety belt, rotate the belt catch perpendicular to the backrest and then pull the belt and catch out.

Note: Refer to "Securing the harness" section above for waist & center strap buckle assembly.

Parking brake operation

1. Step down gently on the parking brake pedal to lock. To test and ensure the brake is engaged, try to push the wagon forward.
2. Lift the parking brake pedal upwards with your foot to release it.

Folding the wagon

1. Flip the side pockets into the wagon.
2. Grasp the folding hinge on both sides.
3. Lift up on the folding hinges with both hands until the wagon is completely folded. Keep fingers clear of hinges to avoid pinching.
4. Secure the lower latch to lock the wagon in the folding position.

Do not use lower latch (4) to lift / hold.

Canopy storage

1. Adjust the handle to the upright direction.
2. Roll up the canopy fabric around the horizontal part of the canopy poles.
3. Insert the combined ends of the canopy poles into the side sleeve compartments.
4. Secure the poles using the straps on the rear leg tubes and snap the fasteners.

Canopy height adjustment

1. Before adjusting the height of canopy, make sure all four plastic clamps at the corners are open.
2. With one hand on each horizontal part of the canopy pole, gently slide the canopy poles up / down to desired height. Be careful not to bend the poles.
3. Secure all four plastic clamps to lock canopy height.

Handle height adjustment

1. Press the adjustable handle button on both sides simultaneously.
2. While the buttons are pressed, position the handle up or down to desired height.

Cleaning the stroller & seat pad.

1. Wash stroller frame with mild soap and warm water solution.
2. For bench fabric, spot clean with mild soap and warm water solution.
3. Rinse and wipe with dry cloth until fully dry.
