NOTES

All blankets dropped off or picked up will be washed and you will be charged accordingly.

Our goal is to extend the life and waterproofing of your blanket as long as possible. Blankets will be repaired in the best way possible to preserve the integrity of the outer layer of fabric.

If a blanket has extensive repairs that would likely cost more than a new blanket, we will always contact you!

After blankets are cleaned, they are folded and individually sealed in protective plastic, labeled with your name and barn, and ready for storage until next winter.

Get in touch if you have any questions!
