PEACE OF MIND

CONVENIENCE

Digital Photo Album

Turn your intercom into a digital photo album by displaying and sharing your favourite photos.

“Delivery for Mrs Smith”

Communicate With Visitors

Conveniently see and communicate with visitors through the intercom feature without opening your front door.

Remote Viewing Capabilities

Monitor live footage whilst you're away from home or away from the device through a smartphone, computer or TV.

Calendar/Schedule

Be on top of your life with the built-in calendar and schedule feature.

Taking care of business

Not only does the KVR-D510 provide you with peace of mind and security in your home, it also has the power to satisfy the needs of your business.

With the Kocom KVR-D510, businesses are able to monitor and record any activity around their business ranging from their counters through to their warehouse (via CCTV cameras), as well as communicating with visitors (via front door station) and staff around their facility (via additional monitors).

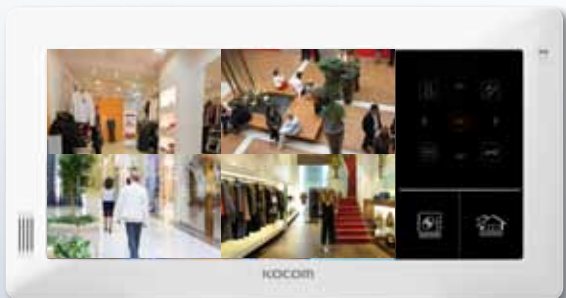

The KVR-D510 offers standalone pentaplex DVR functionality, allowing users to record, view/playback, network (view remotely), administrate and backup, all at the same time. It also features H.264 codec, real-time recording at half D1, together with various recording options such as; motion, continuous, schedule and via sensors. Businesses also have a range of options to backup recordings through a SD card, external hard drive or via the network.

Feel in control of your business with the Kocom KVR-D510 integrated intercom and CCTV solution.
