AR351 NERVE BLOCK/PAIN RELIEF MANIKIN

Product Leaflet

AR351 NERVE BLOCK/PAIN RELIEF MANIKIN

The Regional Anaesthesia Simulation Manikin has been designed by a **Consultant Anaesthetist** at the **Manchester and Salford Pain Centre** for training anaesthetists in correct needle placement in Nerve Blocks for pain management.

The manikin has now been improved to include a flesh coloured fabric covered torso.

Features

The manikin consists of a specially coated plastic human skeleton, head covered in artificial skin and flesh coloured fabric covered torso, on which trainees can practice the placement of needles under X-ray image intensifier control

The X-ray density of the manikin is low so that the doses of radiation used during simulated procedures are reduced

Scan the QR code to access the product video

Skills

- Knowledge of surface anatomy applied to the individual nerve blocks
- Orientation of image and identification of appropriate radiographic landmarks
- Identification point of needle insertion and angle of direction
- Recognition of contact with deep bony structures
- Principle of withdrawing and directing needle to alter the angle
- The end point of simulation is the correct radiographic appearance
- Accurate needle placement is required to guarantee the efficacy of many diagnostic pain clinic blocks and is mandatory when neurolytic solutions are used. Radiological screening to confirm needle placement should be routine and training for this needs to be practical
- Attempts at regional anaesthesia by trainees who are not familiar with the techniques may result in uncomfortable and prolonged procedures for patients

The Manikin can be used to teach the following Nerve Blocks:

- 1 Lumbar sympathetic block
- 2 Splanchnic nerve block
- 3 Epidural injections at all spinal levels
- 4 Cervical, Thoracic and Lumbar facet joint injection and radio frequency denervation of posterior primary ramus
- 5 Cervical facet joint injection
- 6 Trigeminal ganglion block or radio frequency needle placement
- 7 Coeliac nerve block
- 8 Superior hypogastric nerve block
- 9 Sacroiliac joint injection

Includes

- A special DVD and leaflet illustrating the use of the manikin
- Rigid carrying case

2 Year Guarantee

All products manufactured by Adam,Rouilly are covered by our full 2 Year Guarantee. This guarantee applies to models which have been used correctly and covers durability and functionality.

Adam,Rouilly

As part of our policy of continual product development, the specification of products may alter without prior notice.

Adam,Rouilly has over 100 year's experience in providing quality medical models and simulators.

Should you require any further information please contact our Sales Department who will be pleased to help with your enquiry.
