Ready to assist. Right from day 1.

Lucy Maternal and Neonatal Birthing Simulators

Full-body simulators for comprehensive birthing training – from prenatal to postnatal scenarios

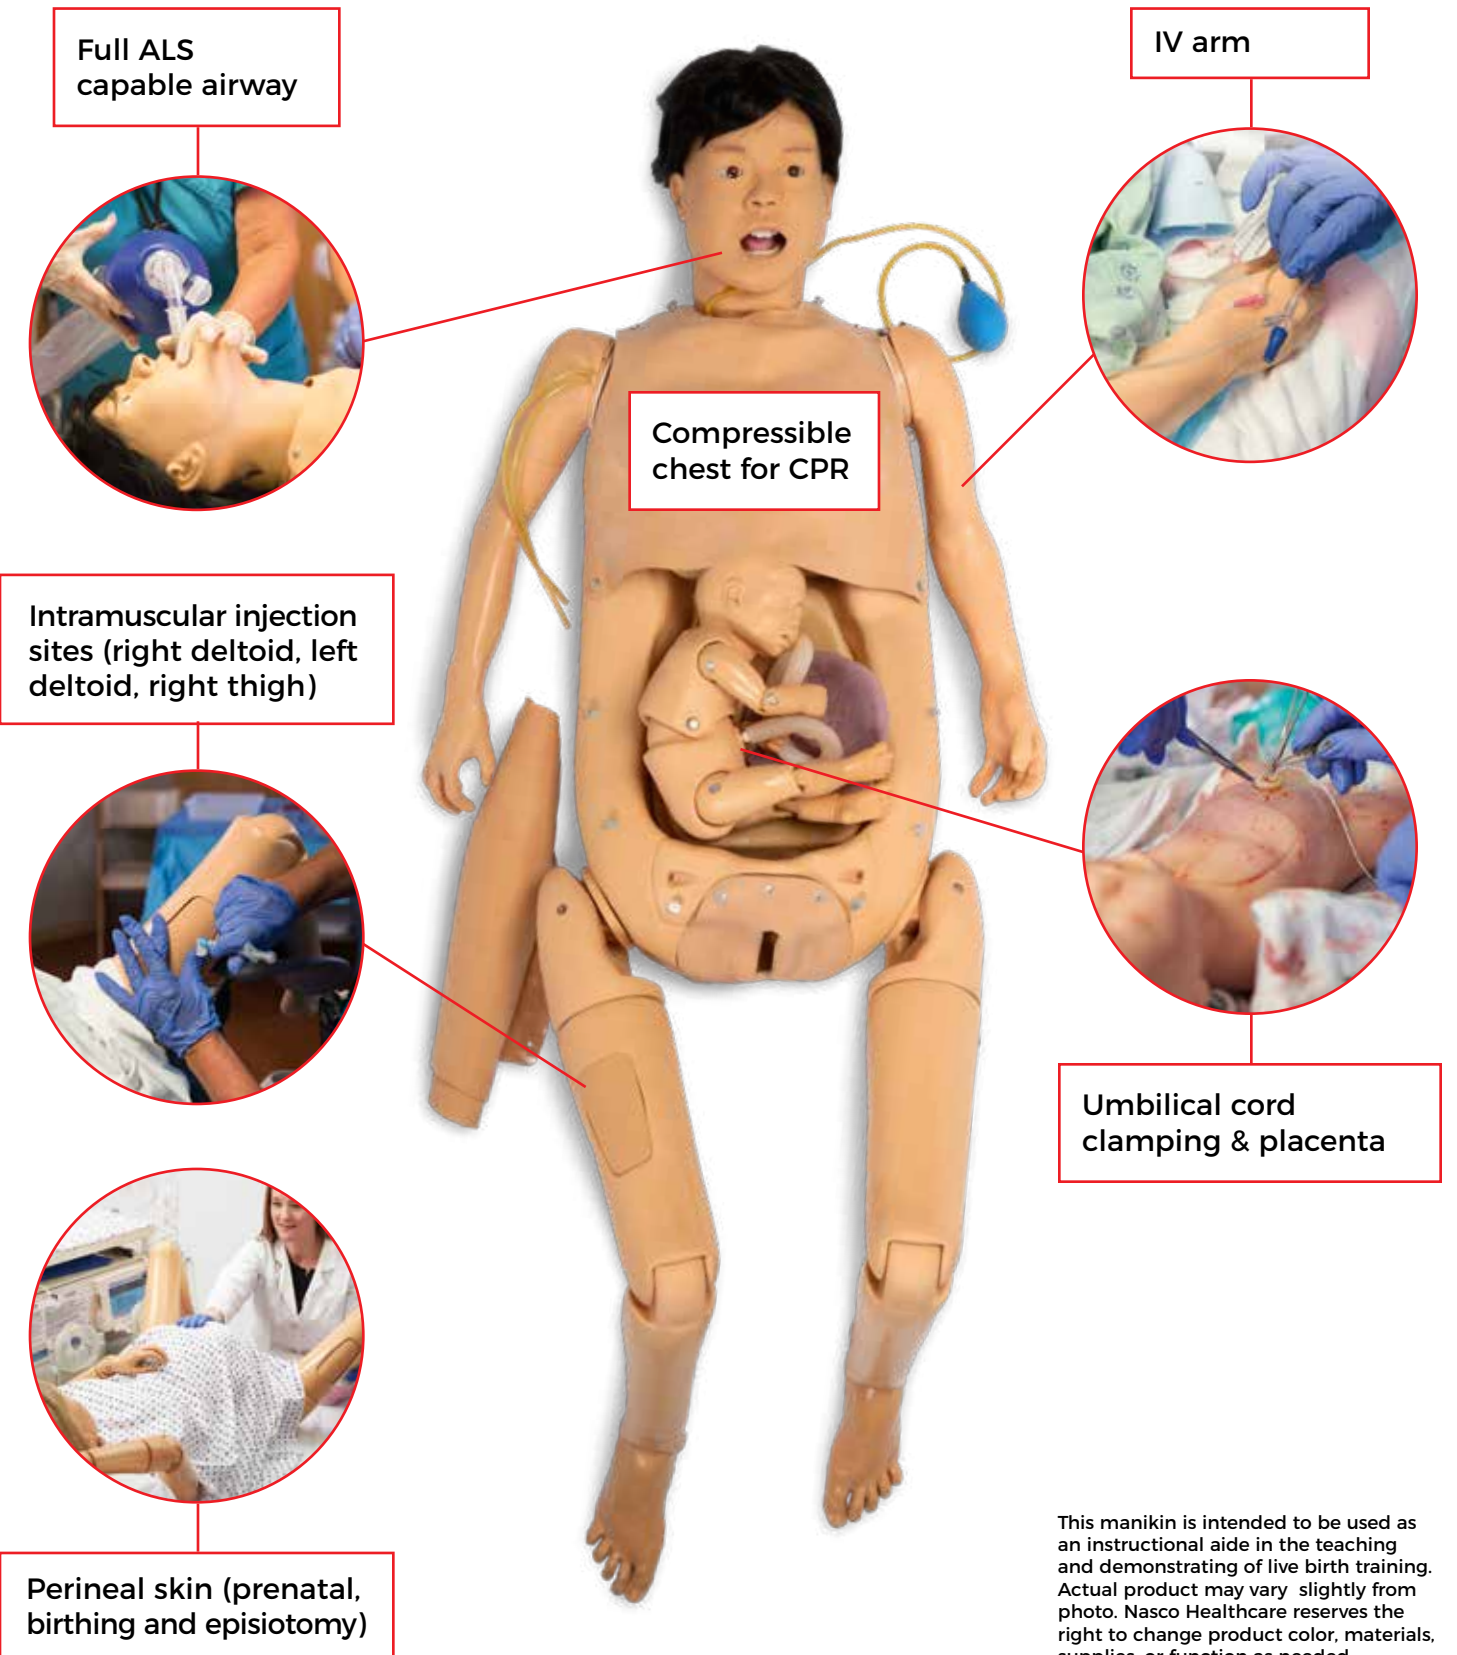

- Superior range of motion with fully articulated joints
- Bony landmarks, including ischial spines
- Pairs with micro-preemie or full-size articulating baby
- Meets North American standards for birthing training

Enables nurses and EMTs to train on multiple birthing scenarios and potential complications, including:

- Birthing positions (hands and knees, lateral, supine)
- Deliveries (vaginal, cesarean, forceps-assisted, vacuum-assisted)
- Breech delivery (complete, incomplete, footling and frank)
- Fetal palpation (abdominal and Leopold's maneuvers)
- Cervical dilation and episiotomy repair
- Postpartum hemorrhage and shoulder dystocia

Lucy: One-Of-A-Kind Childbirth Simulator

This manikin is intended to be used as an instructional aide in the teaching and demonstrating of live birth training. Actual product may vary slightly from photo. Nasco Healthcare reserves the right to change product color, materials, supplies, or function as needed.
