

Brite Eyes

Indications:

- To lighten and eliminate discoloration and dark circles under the eyes.
- To condition and improve the appearance of skin that does not heal well or bruises easily.
- To nourish the surrounding tissue and fight free radical damage.

Key Features:

- Excellent for pre- and post-operative treatment.
- Unique delivery system combining Emu Oil, Vitamin E and Arnica 2%.
- Deep penetrating.
- High levels of Arnica Montana. Known for its calming, soothing, hyper-anemic healing and anti-phlogistic properties. It also activates blood flow to the skin.
- Emu Oil has tremendous moisturizing capabilities. It is also a transport of bioactive elements into the skin and appears to accelerate the body's ability to heal itself. It is listed by the Australian TGR (Therapeutic Goods Register), a government agency similar to our FDA, as an active ingredient and an active substance.
- Emu Oil contains Oleic and Linolenic essential fatty acids to nourish the skin. Gamma-Linolenic Acid, an essential fatty acid, enhances the skin's barrier protective system.
- Vitamin E (USP) is a well-known healing agent and antioxidant. This also creates a synergistic effect between Arnica Montana and Emu Oil.
- Helps to heal existing damage and protect the skin from further damage.
- Superior, elegant emollient with excellent stability.
- Grease-less. Non-toxic. Fragrance-free.

Directions:

- Apply a thin and even layer, the size of a small pea for each eye that covers the affected area.
- Do not use on broken or abraded skin.
- If using a skin bleaching agent or lightener, discontinue the lightener. Do not resume usage of the lightener for at least 14 days following complete healing.
- After application during the day, apply a broad-spectrum sunscreen.
- Dark Circles: Apply around the peri-orbital socket. Use in lieu of a moisturizer or an eye crème. Allow drying. Apply sunscreen, apply makeup.
- Cosmetic Surgery: Use pre- and post-operative under the direction of a physician. Do not apply directly to sutures.
- Prophylactic and Pre-Op: Use twice daily to help condition the skin. Use the crème at least two weeks prior to a procedure or activity to minimize and prevent further bruising.
- Post-operative: An excellent vehicle to treat common bruising following surgery. Use twice daily. You may use this in conjunction with our E2 Serum for its anti-inflammatory benefits and reduction of scar tissue.

Warnings:

- For topical use only. Avoid direct contact with eyes and mucous membranes.
- Keep away from small children.
- If irritation develops, discontinue use
- Store at room temperature. Do not expose to excessive heat.
