

## Charcoal Deep Cleanse Mask

### Indications:

- To calm redness following post-operative procedures, heat / humidity issues, normal skin sensitivities, and oily to excessive oiliness.
- Works on environmentally-damaged skin.
- Nourishes and enriches the skin with Grape Seed Oil, Spirulina and loaded with Vitamins.

### Key Features:

- Works extremely well on all skin types while specially formulated for sensitive, irritated, and oily to very oily skin.
- A blend of botanical resources including two types of clay, sea kelp and spirulina.
- Organic elements include Grapeseed Oil and Aloe Vera.
- Grape Seed Oil enhances the antioxidant activity.
- Spirulina is a natural, botanical algae. It can nourish the skin with incredibly rich protein along with antioxidants, Vitamins B1 (thiamine), B2 (Riboflavin) and B3 (Niacin), Copper, Iron, Magnesium, Potassium and Manganese.
- Makes a wonderful mask for at home care and an even better use in professional treatments for multiple functions.
- Can be used on the face and body.
- 60% natural and organic components.
- Cooling feel on the skin.
- Perfect for individuals with inflammatory conditions or when someone comes in from excessive heat.
- Removes surface oils and grime.
- This product helps resolve and control skin oiliness. It is not a product that will help resolve or control acne.

### Directions:

- Cleanse skin with either our Antiseption™ Antimicrobial Cleansing Gel, Pro-C Antioxidant Gel Cleanser, or Non-Drying Cleansing Lotion. Allow the skin to dry for no more than one minute.
- Apply evenly over the entire area. It should be dry within ten (10) minutes. Leave on for an additional five (5) minutes. Moisten with a damp wet cloth or wipe with lukewarm water. Gently loosen the mask in a circular motion to remove it. A sponge, Skin Shammy, or gauze pads will also work well. Gently rinse with clean water and towel dry.
- As an added treatment apply a drop of our Antioxidant C-Burst or Retinol Fusion to each side of the face before applying the mask. These should be dry within 1 minute. If not, dab off excess with a tissue.

### Warnings:

- For external use only.
- Keep away from eyes.
- Keep away from children.
- Not to be ingested.
- If irritation develops, discontinue use.

Sizes	Item	Bottle	pH	Shelf Life
0.5 oz / 14.20 gm	12301	Round jar	7.0 - 9.0	24 Months
2.50 oz / 70.0 gm	12302	Round white	7.0 - 9.0	24 Months
4.00 oz / 113.40 gm	12304	Round white	7.0 - 9.0	24 Months
16.0 oz / 453.60 gm	12306	Round white, pump	7.0 - 9.0	24 Months

<b>Skin Type</b>	<b>Sensitive</b>	<b>Dry/ Mature</b>	<b>Normal</b>	<b>Combo</b>	<b>Oily</b>	<b>Acne</b>
	<b>X</b>	<b>Discretion</b>	<b>X</b>	<b>X</b>	<b>X</b>	<b>Discretion</b>
<b>Face</b>	Apply lightly and evenly on all affected areas. Usage based on area size and number of times used. The 2.5 oz jar would have approximately 7 – 9 uses for a full adult-size face .					

### Ingredients:

Aqua (Deionized Water), Kaolin (Kaolin Clay), Bentonite (Bentonite Clay), Glycerin (Kosher, Vegetable), Cetyl Alcohol, Glyceryl Stearate, Isopropyl Palmitate, Lactic Acid, Squalane (From Olive Oil ), Charcoal Powder (Coconut Charcoal), Aloe Barbadensis Leaf Juice (Organic Aloe), Cetearyl Alcohol, Stearyl Alcohol, Calophyllum Inophyllum Seed Oil (Tamanu), Rosa Canina Fruit Oil (Organic Rosehip Seed), Simmondsia Chinensis Seed Oil (Organic Jojoba), Vitis Vinifera Seed Oil (Grapeseed), Tocopheryl Acetate (Vitamin E), Sodium Ascorbyl Phosphate (Vitamin C), Salicylic Acid, Glycolic Acid, Acetyl Hexapeptide-1, Ascorbic Acid, Ubiquinone (Coq10), Camellia Sinensis Leaf Extract (Organic Green Tea), Ganoderma Lucidum Extract (Organic Reishi), Symphytum Officinale Leaf Extract (Comfrey Leaf), Citrus Aurantium Dulcis Fruit Extract (Sweet Orange), Citrus Limon Peel Extract (Lemon), Lonicera Caprifolium Flower Extract (Honeysuckle), Lonicera Japonica Flower Extract (Japanese Honeysuckle), Pyrus Malus Fruit Extract (Apple), Saccharum Officinarum Extract (Sugar Cane), Mahonia Aquifolium Root Extract (Oregon Grape), Glycyrrhiza Glabra Root Extract (Organic Licorice), Lavandula Officinalis Flower Oil (Lavender Essential Oil), Cananga Odorata Flower Oil (Ylang Essential Oil), Cymbopogon Schoenanthus Oil (Lemongrass Essential Oil), Cetearyl Glucoside, Xanthan Gum, Tetrasodium Glutamate Diacetate, Butylene Glycol, Dipeptide Diaminobutyroyl Benzylamide Diacetate, Lecithin, Lysolecithin, Phytic Acid, Pullulan, Sclerotium Gum, Alcohol, Potassium Sorbate (Preservative), Sodium Benzoate (Preservative)--February 2020

### Alphabetical with definition:

- Acrylates/C10-30 Alkyl Acrylate Crosspolymer is a synthetic polymer that functions as an emulsion stabilizer and to create viscosity. It is an increasing agent and typically found in moisturizing preparations. More commonly known as Carbopol.
- Aloe Barbadensis Leaf Juice (Organic Aloe); the juice expressed from the leaves of the aloe plant. Chemical class is Biological Products. Its function is a Skin-Conditioning Agent – Miscellaneous. It is reported in over 50 product categories.
- Aqua – see Water, deionized.
- Bentonite Clay:
  - Cellulose Gum is the sodium salt of the polycarboxymethyl ether of Cellulose. It is in the Chemical Class of Gums, Hydrophilic Colloids and Derivatives; Organic Salts. This ingredient functions as a Binder; Emulsion Stabilizer; Film Former; Fragrance Ingredient; and Viscosity Increasing Agent-Aqueous. It is utilized in 25 product categories.
- Cetyl Alcohol.
- Ethylhexylglycerin: is an organic compound in the Chemical Class of Alcohols; Ethers. It functions as a Deodorant Agent; and Skin Conditioning Agent – Miscellaneous.
- Glycerin (Kosher, Vegetable).
- Glyceryl Stearate.
- Kaolin Clay is a native hydrated aluminum silicate. Kaolin may be used as an active drug ingredient. It is in the Chemical Class of Inorganics. It functions as an Abrasive; Absorbent; Anticaking Agent; Bulking Agent; Opacifying Agent; Skin Protectant; and Slip Modifier.

- **Macrocystis Pyrifera Extract (Sea Kelp)** is an extract of the sea kelp, *Macrocystis pyrifera*. It is in the Chemical Class of Biological Products. Its function is not reported in the CTFD Dictionary and Handbook. It is utilized in seven product categories.
- **Magnesium Aluminum Silicate** is a complex silicate refined from naturally occurring minerals. It is in the Chemical Class of Inorganic Salts. It functions as an Absorbent; Anticaking Agent; Opacifying Agent; Slip Modifier; and a Viscosity Increasing Agent-Aqueous. It is utilized in approximately 50 product categories.
- **Phenoxyethanol** is an aromatic ether alcohol. It is in the Chemical Classes of Alcohols and Ethers. It serves 2 basic functions: Fragrance ingredient and Preservative. It is used in over 50 Product Categories.
- **Purified Smectite Clay** is a natural non-metallic clay. The most recognized form is Bentonite. It has been used in mineral baths and for heat elements to soothe the skin. It contains large amounts of minerals and is able to absorb large amounts of oils or water. The purification process creates a fine powder that can be added to topical products and has been used for medicinal purposes.
- **Sodium Magnesium Silicate**. Synthetic silica clay with a composition of magnesium and sodium silicate. This is widely used in skin care preparations since it shows no issues with regard to irritation and toxicity. Highly soluble in water. It functions as a Binder.
- **Spirulina Maxima Extract** is reduced to a fine powder from natural algae (cyanobacteria) that is incredibly high in protein. It is a good source of antioxidants, vitamins and other nutrients. Spirulina is a superb source of antioxidants, which protect against oxidative damage. The main active component is called phycocyanin. This substance gives Spirulina its unique blue-green color. Phycocyanin can fight free radicals and inhibit production of inflammatory signaling molecules, providing impressive antioxidant and anti-inflammatory effects. - Joe Leech, MS
- **Vitis Vinifera Seed Oil (Grapeseed)** is the fixed oil by pressing grape seeds. It is in the Chemical Class of Fats and Oils. It functions as a Skin-Conditioning Agent-Miscellaneous and is typically found in Moisturizing Preparations.
- **Water, Deionized**: Synonymous with demineralized water / DMwater. This is water that has had almost all of its mineral ions removed, such as cations like sodium, calcium, iron, and copper, anions such as chloride and sulfate.
