

Professional Scalp Defense - Step 4

Indications:

- To protect the hair follicles.
- To prevent normal daily sebum production from rancifying and becoming toxic to the hair follicles.

Key Features:

- Prevent normal sebum production from rancifying and becoming toxic to the hair follicles.
- Protects the hair follicles until the next day's treatment.
- Contains the #1 DHT Inhibitor.
- Product leaves no odor.
- Will not irritate the scalp and dries quickly.
- Makes the hair follicles healthier.
- Allows hair growth to occur naturally.
- Hormone-free.

Directions:

- Use immediately after towel drying your hair.
- Part the hair and apply ¼ ounce to the entire scalp.
- If an applicator tip was provided, use it to measure the dose.
- Try not to waste product on the hair during application.
- DO NOT massage and DO NOT rinse out.
- Towel dry again, if desired.

Warnings:

- Avoid contact with eyes.
- In case of accidental exposure, rinse with plenty of lukewarm water.
- Keep away from small children.
- For external use only. If ingested, contact a poison control center immediately.
- If irritation develops and persists after a few days of treatment, discontinue use and contact us for further review.
